REPORT OF THE AUDITOR

QUINCY, MASS., March 1, 1926.

To the City Councillors, Quincy, Mass.

In accordance with the ordinance of the city, I submit the annual report of my department, showing in detail the receipts and expenditures of each department.

Also several statements showing the financial condition of the city at the close of the financial year, December 31, 1925.

HENRY O. FAIRBANKS,
City Auditor.

In Council

FEBRUARY 16, 1925.

Ordered:

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1925 and ending December 31, 1925 to be expended by and under the direction of the several officers or boards as herein designated.

That the appropriation for Bonds, Interest, Water Maintenances and clerical, be paid from Water Receipts.

The total funded debt of the city January 1, 1925, was \$3,130,300. During the year this was reduced by payments as follows:

City debt within the limit	\$265,000 00
Sewer debt within the limit	39,000 00
Outside the debt limit:	
Street improvement	800 00
Sewer	28,000 00
Water	55,500 00
County Hospital	9,000 00
City Hospital	11,000 00
High school land	3,000 00
High school building	52,000 00
High school equipment	4,000 00
	<u>\$467,300 00</u>

The funded debt during the year has been increased as follows:

Within the debt limit:	
City Hospital building	\$150,000 00
Junior high school building	100,000 00
Police station building	100,000 00

Fire apparatus	\$45,000 00
Surface drains	75,000 00
Sewer extension	80,000 00
Accepted streets	80,000 00
Outside the debt limit:	
Water construction	70,000 00
Monatiquot bridge	52,000 00
	<hr/>
	\$752,000 00

Summary

Funded debt January 1, 1925	\$3,130,300 00
Bonds paid during the year	467,300 00
	<hr/>
	\$2,663,000 00
Bonds issued during the year	752,000 00
	<hr/>
Net debt	\$3,415,000 00
Increase of funded debt	\$284,700 00

The funded debt of the city is as follows:

Schools including land	\$1,241,000 00
Street construction	627,000 00
Sewer construction	566,500 00
Water construction	266,000 00
Surface drains	156,500 00
Granolithic walks	16,000 00
City Hospital	293,000 00
County Hospital	31,000 00
Monatiquot bridge	52,000 00
Playgrounds	7,000 00
Police station building	100,000 00
Fire apparatus	45,000 00
Cemetery	14,000 00
	<hr/>
Total	\$3,415,000 00

BORROWING MARGIN FOR 1925

"General Laws. Chapter 44, Section 70"

Except as otherwise authorized by law a city shall not authorize indebtedness to an amount exceeding two and one-half per cent. on the average of the assessors' valuation of the taxable property for the three preceding years, the valuation being first reduced by the amount of all abatements allowed thereon, previous to December 31 of the preceding year.

Net valuation, 1923	\$81,929,925 00
Net valuation, 1924.....	92,571,000 00
Net valuation, 1925	108,599,900 00
	<hr/>
	\$283,100,825 00

CITY OF QUINCY

Three years' average	\$94,366,941 00	
Two and one-half per cent.	\$2,359,173 00	
Debt January 1, 1926:		
City	\$1,534,500 00	
Sewer	257,000 00	
	<hr/>	1,791,500 00
		<hr/>
		\$567,673 00

MUNICIPAL FINANCES ILLUSTRATED

The following diagram shows how the revenue of 1925, derived from taxes and ordinary receipts excluding all money borrowed, is expended.

"Highways" includes maintenance, repairs, rebuilding of streets, street watering and street lighting. "Protection of persons and property" includes police, fire, gypsy moths, sealer of weights, building and wire inspection. "General government" includes the offices in City Hall.

HENRY O. FAIRBANKS,
Auditor of Accounts.

	\$33,050 00

Conclusion

The data and facts given in the 1925 report leaves no doubt of the enormous growth in the demands upon the department, which demands are sure to be greater upon our moving to new headquarters, at the present time probably 50 per cent. completed.

To persons not familiar with police department duties there is little chance for them to pass fair judgment as to the justification of our claim for additional numerical strength. To justify my claim for the need of more officers the following explanation is given with the hope that it may be carefully studied.

Today we are provided with 69 regular permanent patrolmen and 20 reserves. The intent of a reserve force is, of course, to be prepared for any emergencies, but, owing to the shortage numbers, they are regularly employed and have been for three years so regularly employed, leaving us without any emergency force. The demands upon us make it necessary to assign these officers in the following manner, which should readily show the need of more men.

One is assigned as City Hall guard, one at Merrymount Park, one as clerk at headquarters, two as chauffeurs, one wagon man, one janitor, three on liquor squad, eight on fixed traffic posts, five on motor cruisers, and during almost the entire year we operate six motor cycles. The above-mentioned places must, of course, be provided for "day off" by another, which shows the loss of about 30 from our total of 89 and which leaves us with about 59 men to divide into 3 sections or continuous patrol.

The law now steps in and provides that members shall have one day off in every eight, which to us means a daily loss of 12 to 14.

Again the law provides that members shall enjoy a vacation of two weeks each year without the loss of pay, while a city ordinance makes certain provisions for those off duty through sickness or disability. Our loss of strength through sickness is not very large, but to us already seriously taxed for above stated reasons, it does severely cripple our numerical strength. The result is that it is not at all uncommon to be left with about fourteen, fifteen and sixteen men to patrol our more than sixteen miles of territory and 200 miles of streets for each of the three shifts.

Extraordinary Duties

Extra demands for police service are many and varied throughout the year. Some of these duties are outside the regular routine of police duty and often seriously weaken the general plan of police protection. While the patrol force normally is inadequate, these added duties, at times, constitute a severe and almost intolerable handicap.

The following will illustrate some of the frequent demands:

Drawing police lines and otherwise assisting the Fire Department at many fires.

Responding to hundreds of ambulance calls.

Aiding sick and injured persons.

Handling lost children.

Policing meetings.

Policing parades.

Election duties.

Football games.

School crossings.

Payroll protection.
Poll tax listing.
Baseball games.
Snow removal ordinance.
Band concerts.

Besides the foregoing, the policing of summer resorts constitutes a severe, though only seasonable additional burden.

The visit of the President of the United States to this city, and those of eminent public men, although infrequently, require special police protection, and carefully articulated plans have to be prepared and executed, covering their respective receptions while here. Nothing can be left to chance, as a guarantee that no awkward incident can mar these occasions.

To all members of the department who have worked to reach and maintain a high standard of efficiency, I am sincerely thankful.

To all who have given advice and assistance, I assure my appreciation and promise that our best efforts to merit their confidence in the future will be given.

Respectfully submitted,

ALFRED W. GOODHUE,

Chief of Police.

REPORT OF CEMETERY DEPARTMENT

JANUARY 1, 1926.

HON PERLEY E. BARBOUR, *Mayor of Quincy, Mass.*

DEAR SIR:—The Manager of Public Burial Places respectfully presents the following financial report for the year ending December 31, 1925:

The sum of \$6,985.00 was added to the Perpetual Care fund, a detailed statement of the investment will be found in the City Treasurer's report.

Respectfully submitted

WELLINGTON W. MITCHELL,
Manager of Public Burial Places.

REPORT OF DEPARTMENT OF PUBLIC WELFARE

JANUARY 1, 1926.

To His Honor, the Mayor of the City of Quincy:

The Commissioner of Public Welfare in compliance with the City Ordinances, respectfully submits his report for the year ending December 31st, 1925.

In reviewing the work of the department during the past year, a work which calls for the exercise of considerable care, thought and investigation, a kind sympathetic heart in one case, a firm will in the next, I cannot but think that I have perhaps fallen many times far below the ideal which I visualized on assuming the position. The separation of the wheat from the chaff should never be more earnestly and conscientiously practiced than in the work of this office. I have no doubt made many mistakes, but the only explanation I can offer is I have done the best my judgment dictated.

I wish to particularly mention in this report the able assistance of my clerk, Mrs. Wall. Coming to the office a total stranger to its work I have received invaluable assistance from her in the proper handling of many perplexing problems.

To Dr. Richard Ash, City Physician, I wish to extend my thanks. Always ready to respond to any request of mine for attention to the needy sick, he has been most attentive to the work when called on.

To Miss Waddell of the Family Welfare Society I wish also to extend my hearty thanks for her kind cooperation, she giving willingly of her time in visiting many cases with me and giving me the benefit of her sound judgment and experience.

Respectfully submitted

CHAS. C. HEARN,
Commissioner of Public Welfare.

One auto combination pumping engine.

Quincy Point Station

One auto combination pumping engine.

West Quincy Station

One auto combination pumping engine.
 One auto combination ladder truck.

Houghs Neck Station

One auto combination hose truck.
 One auto combination ladder truck.

Squantum

One portable house with hand reel (350 feet of hose).

Fire Alarm

One Dodge truck.

FIRE ALARMS

During the year there have been 685 alarms:

Bell alarms, 162.

Still and telephone 523.

False alarms, 24.

The Central station responded to 323 alarms, 137 bell, 185 still.

The Wollaston station responded to 187 alarms, 42 bell, 125 still.

The Atlantic station responded to 178 alarms, 47 bell, 131 still.

The Quincy Point station responded to 108 alarms, 47 bell, 61 still.

The West Quincy station responded to 123 alarms, 46 bell, 77 still.

The Houghs Neck station responded to 51 alarms, 14 bell, 37 still.

Total number of feet of hose laid.....	54,550
Central station laid	19,750
Wollaston station laid	11,600
Atlantic station laid.....	8,000
Quincy Point station laid.....	6,450
West Quincy station laid	5,750
Houghs Neck station laid.....	3,100

Number of feet of ladders raised.....	2,942
Number of gallons of chemicals used.....	6,004
Numbers of hours absent from quarters.....	512 hrs. 45 min.
Number of hours engines worked.....	31 hrs. 30 min.
Number of inspections made.....	24,716
Number of drills	292

VALUATIONS, INSURANCE AND LOSSES

Value of property involved	\$1,162,710 00
Insurance on same	853,750 00
Loss insured and uninsured	94,797 00

Fire Losses for the year 1925

Month	Buildings	Contents	Losses
January	\$5,032 00	\$429 00	\$5,461 00
February	1,480 00	482 00	1,962 00
March	5,420 00	4,097 00	9,517 00
April	378 00	462 00	840 00
May	4,926 00	1,705 00	6,631 00
June	4,750 00	3,200 00	7,950 00
July	3,379 00	5,652 00	9,031 00
August	2,785 00	700 00	3,485 00
September	1,200 00	55 00	1,255 00
October	3,465 00	2,071 00	5,536 00
November	32,733 00	6,600 00	39,333 00
December	3,129 00	667 00	3,796 00
Total	\$68,677 00	\$26,120 00	\$94 797 00

I am very much pleased to say that during the year just passed, the Fire Department, much to my satisfaction, has had the recognition which it is entitled to and the reason is very apparent.

In the first place your Honor has given me splendid support and co-operated with me in every way. Likewise the Council members, especially the Committee of Fire and Police. To you personally and also the Council members I wish to extend my sincere appreciation.

We have added to our department four new pieces of up-to-date fire apparatus with modern equipment, also twelve men, making the total force eighty-five men. These new men are making good and are a big asset to the department.

Four pieces of apparatus have been painted. Some of the stations have been renovated and the rest will receive attention this coming year.

Drills have been maintained throughout the good weather and have resulted in much benefit to the department. Daily exercises are required from each platoon, which keeps the men in good physical condition, and I can truthfully say that the department is better morally and physically and that its efficiency is far better than it ever was and that the citizens should feel proud of its Fire Department.

We hope that we may see the water mains enlarged this year

and hydrant threads standardized. All of our hose threads and different fittings have been standardized according to law; we have also done the same thing for the Bethlehem Ship Building Company.

Our fire losses for the year past are over \$31,000 less than the year of 1924.

Our inspections no doubt have presented many fires.

The Atlantic section should be provided with new up-to-date quarters, as the old station has outlived its usefulness, and a larger company with more equipment should be added. This, I think, is very much needed. We also should have a new Central station. More men at Houghs Neck are needed, so that we may put the ladder truck in commission in that section. Repairs should be made in this station so as to accommodate these new men.

On the whole I am very much pleased with the workings of this department the past year, and I want to extend my sincere appreciation to the officers and members for their good work and co-operation. We have got a good department now and I know it will be better at the end of the coming year.

Respectfully submitted,

ALFRED L. MEAD,

Chief of Fire Department.

REPORT OF CITY CLERK

I have the honor to submit the thirty-seventh annual report for this department, being for the year ending December 31, 1925.

Receipts

Junk licenses	\$290 00
Amusement licenses	2,271 00

REPORT OF COLLECTOR OF TAXES

To His Honor, the Mayor of the City of Quincy:

I have the honor to submit the following report of the Tax Collector's Department for the year ending December 31, 1925.

The amount of cash collected on the tax for the various years is as follows:

Tax of 1919		Cash Received
Amount uncollected January 1, 1925.....	\$165 30

REPORT OF SEALER OF WEIGHTS AND MEASURES

JANUARY 1, 1926.

HON PERLEY E. BARBOUR, *Mayor, City of Quincy, Mass.*

SIR:—I respectfully submit the annual report of the Sealer of Weights and Measures Department for the year ending December 31st, 1925.

During the year the sealer and deputy visited 1226 places of business, an increase of 296 over the previous year, with fees amounting to \$763.75, an increase of \$138.00 over the 1924 collection.

The appointment of a deputy has been of great assistance to me in my work of sealing and inspection of goods offered for sale. Below will be found a summary of work done by this department:

Scaling scales	Ad-justed	Sealed	Con-demned
Platform scales, over 5,000 lbs.....	0	27	4
Platform scales, under 5,000 lbs.....	19	327	14
Counter scales, over 100 lbs.....	0	49	0
Counter scales, under 100 lbs.....	3	311	4
Beam scales, over 100 lbs.....	0	17	0
Spring scales, over 100 lbs.....	0	119	10
Spring scales, under 100 lbs.....	17	473	37
Computing scales, over 100 lbs.....	1	10	0
Computing scales, under 100 lbs.....	28	406	20
Personal weighing	0	51	3
Prescription	0	31	0
Jewelers	0	4	0
Avoirdupois weights	159	3037	2
Apothecaries weights	0	388	5
Metric weights	0	57	0
Troy weights	0	62	0
Liquid measures	0	466	13
Oil jars	0	326	6
Dry measures	0	2	0
Gasoline pumps	8	239	13
Kerosene pumps	0	19	0
Oil pumps.....	0	297	6
Molasses pumps	0	12	0
Quantity measures on pumps	0	1023	0
Yard measures	0	171	1
Cloth measuring machines	2	5	0
Totals	235	7929	138

Sealing fees, \$763.75.

REWEIGHINGS

	Tested	Correct	Under	Over
Bread	505	225	171	109
Butter	165	148	16	1
Charcoal	35	35
Coal in bags	115	52	31	32
Coal in transit	23	18	1	4
Coke	10	10
Confectionery	57	38	12	7
Dry commodities	1053	920	91	42
Flour	102	84	11	7
Fruits and vegetables	393	266	106	21
Grain and feed	26	26
Hay	11	11
Ice	20	4	16
Liquid commodities	4	4
Meats and provisions	140	72	62	6
Wood (cord)	2	1	1
Wood (kindling)	27	27
Totals	2688	1941	518	229

INSPECTIONS

Clinical thermometers	225	225
Coal certificates	1	1
Ice scales	9	9
Junk scales	3	3
Markings bread	95	95
Markings food packages	669	669
Milk jars	68	68
Paper or fiber cartons	20	20
Pedlars license	56	56
Pedlars scales	12	12
Transient vendors	26	26
Wholesale milk cans	36	36
Glass graduates	29	29
Gasoline devices	80	80
Oil pumps	4	4
Oil jars	166	166
Total inspections	1499	

As the hawkers and pedlars licenses are issued from the office. They were in number 107—fees \$535.00.

Respectfully submitted,

JAMES M. CANTFILL,
Sealer of Weights and Measures

REPORT OF ASSESSING DEPARTMENT

JANUARY 1, 1926.

To His Honor, the Mayor and the Honorable City Council:

The following is respectfully submitted as the report of the Assessing Department for the year 1925:

Valuations and Rate

The valuation of the city April 1, 1925, as determined by the assessors, follows:—

Real Estate

Value of buildings	\$60,362,050 00
Value of land	35,575,650 00
Value of land and buildings	\$95,937,700 00

Personal Property

Value of personal property	\$13,115,925 00
Total valuation of the city as determined April 1st, 1925	109,053,625 00
Amount to be raised by taxation	2,944,501 82
Tax rate	\$27 00
The valuation was also increased by omitted assessments levied in December, 1925	\$117,975 00
The total valuation of the city upon which taxes were assessed for the year 1925, when all assessments had been made, was	\$109,171,600 00

The polls returned by the police and those registered for the year amounted to 19,006 at \$2 each, \$38,012.

The assistant assessors who returned the personal property were as follows:

1-1 Mildred Smith	4-1 Agnes H. Monahan
1-2 Annie Nelson	4-2 Mary Evans
1-3 Stephen P. Casey	5-1 Katherine Pendergast
1-4 William Sullivan	5-2 Elsie M. Ricker
2-1 Helen Sharen	5-3 Henrietta Sanger
2-2 Joseph Scarvo	5-4 Florence G. Davidson
3-1 Henry F. Tilden	6-1 Walter McBurnie
3-2 Daniel McLennan	6-2 Frances C. Taber

Summary from the Table of Aggregates

Resident property owners	11,395
Non-resident property owners	2,425
Poll tax only	18,720

Number of horses assessed	526
Number of neat cattle and cows	413
Number of dwelling houses	11,700
Number of acres of land	6,000

Respectfully submitted,

JOSEPH WRIGHTMAN,

GEORGE H. BEAN,

FRED L. ZOLLER,

Assessors of the City of Quincy.

REPORT OF DEPARTMENT OF HEALTH

JANUARY 1, 1926.

To the Honorable Mayor and City Council.

GENTLEMEN:—I have the honor to make the following report of the activities of this department for the year 1925.

Appended are the reports of the various activities which show a large growth in all matters so far undertaken by this department along the lines of health. This not only includes those activities required by State laws and regulations, but those that have been undertaken as of especial interest to our own city and our own various community needs.

While it is not a part of the Health Department it is very gratifying to see the greatly needed hospital addition being pushed to a reality, and while of great value to the citizens as a body, it is of value to this department in the effort to reduce infant deaths under one year, this period of life being the most precarious. There are those who take pride in the fact that they were born in Quincy, and with the added hospital facilities, that will be possible to future generations.

With the large increase of stores in the city it seems reasonable that in order to keep proper supervision over this important health matter that more time should be given to the inspection of these stores to insure the citizens at all times clean and pure foods, properly cared for, and of good quality, to this end it is recommended that this department at least do double duty for the coming year.

The department has been relieved of some labor by having the collection of ashes and garbage transferred to the Department of Public Works, while this has occasioned some comment, and a little confusion at first, yet it has had no other effect so far as the sanitary condition of the city is concerned.

As has been recommended in health reports of previous years, there is a great need for more extensive work to be done in the extension of our sewer system. Our collection of cesspools is constantly increasing and is a thorn that tries the patience of those who are moving to our city, as well as being a very unsanitary condition in many parts of the city because of the nature of the soil, especially about the water front. It is therefore recommended that a careful study be given this matter and every possible dollar be devoted to this that can possibly be raised. Those developing certain sections should be required to obtain definite information with regard to this and so aid in this very important matter of sewer extension, and the rapid abolishment of the cesspool nuisance.

As has been noted in appended reports the personnel of the department has been changed by the resignation of the contagious Nurse and of the T. B. Nurse, but we feel very happy in having been able to fill those important positions with able and efficient nurses, those positions now functioning as heretofore with efficiency and enthusiasm.

The Wells Baby Clinics have been well attended and the department feels that a good deal has been accomplished in the promotion of the health of the babies of the city. Those babies showing other than slight functional disturbances are assiduously referred to their own family physician, as shown by our records, and it is earnestly hoped that the physicians of the city will aid this effort in urging those babies whom they know will undoubtedly try the hit and miss method to rather try the clinic method and have the advantage of the follow up nursing that the clinic affords. Physicians of the city may avail themselves of the work of this nurse.

In the supervision of the city milk supply the same careful work has been done as in the previous years with the addition that we now require new employees to be examined by this department as to the possible eliminating of disease carriers. This was done with a view to eliminating from our records that unnecessary disease, Typhoid Fever, and lower the possibility of milk-borne diphtheria. The same rule holds in regard to the testing of cows within the city for T. B. With the increase of population it becomes more and more apparent that all milk should be pasteurized as well as tuberculin tested, as the local supply of fresh milk is very limited and growing more so.

A health survey of the city during the past year has shown some weak spots in our endeavors and it shows that to keep pace with the health activities in other cities of equal size but not of equal importance the expense of this department will naturally increase, but who of us by taking thought will decry the increase when we have to consider that life is a community's greatest asset, and a life saved is an increase of a very potential asset, the value of which no one may appraise.

It is the hope of this department to have as an added aid to the future protection of this city a prenatal nursing service, to not only produce better babies but to assist the potential mother to a longer life of greater usefulness "Give a child a healthy mother and I will give you the healthy and useful citizen."

Natural topographical conditions are things that often try the resourcefulness of the Health Department and have been referred to in a previous report, references to brooks. These are indeed a nuisance and some means should be taken by the city to regulate the method in which they can best be cared for, as to the type of cover used and also as to the size passage allowed. None of the brooks should be covered except in accord with specifications from the City Engineer's Department, this should have that department's recommendations.

Undoubtedly the Department of Health needs to have the best in personnel that is possible to obtain and in order to attract and hold that class of employees it must not be content to see how cheaply that class of people can be obtained as that tends to produce a class of service correspondingly cheap and therefore I recommend that those who are permanent members of the department be paid a good living wage, most of these are Civil Service appointments and are not subject to frequent changes.

To the personnel of this office I have but praise and my most heartfelt thanks to offer, the loyalty and support is an inspiration to me and I heartily commend you to your fellow citizens.

Respectfully submitted,

FRED A. BARTLETT, M.D.,
Health Commissioner.

REPORT OF SUPERINTENDENT

JANUARY 1st, 1926.

DR. FRED A. BARTLETT, *Health Commissioner*.

DEAR SIR: I hereby submit the annual report of the Department of Health for the year ending December 31, 1925.

The personnel of the department is as follows:

Commissioner of Health and Insp. of Milk.....	Dr. Fred A. Bartlett
Superintendent	Thomas G. Smith
Clerk	Verna M. Kelley
Sanitary inspector	A. A. Robertson
Assistant milk inspector	James O'Dowd
Plumbing inspector	J. J. Keniley
Inspector of meats and provisions	Howard O. Rogers
Dispensary physician.....	Dr. C. J. Lynch
Child Welfare physician.....	Dr. E. B. FitzGerald
Venereal disease physician.....	Dr. E. E. Smith
Bacteriologist	Dr. E. E. Smith
Tuberculosis nurse.....	Gert. T. Russell, R.N.
Contagious nurse	Cath. F. Coleman, R.N.
Child Welfare nurse	Nettie D. Fowler, R.N.
Inspector of animals and slaughtering	Dr. E. A. deVarennes

Under date of March 1st, 1925, the Public Works Department took over the ashes and garbage from this department. Under date of May 1st, Mrs. Ruth Bean McKenzie resigned as contagious nurse, her resignation was accepted with deep regrets, as she had been a faithful and painstaking nurse. Her position was ably filled in the selection of Miss Catherine Coleman, a graduate nurse of wide experience. Under date of October 3rd, Miss Lillian T. Coleman, Tuberculosis Nurse resigned to accept a position with the Boston Health Department, she also was a faithful nurse and her resignation was also accepted with regrets. Her position was ably filled by the selection of Miss Gertrude Russell also a graduate nurse.

The year 1925 was marked with a decrease in the death rate, and we enjoy the distinction of having one of the lowest death rates in the state.

I wish to extend my thanks to the Health Commissioner and personnel of the department for their hearty cooperation in all matters pertaining to the department.

Appended you will find the report of the various inspectors and nurses, and also report of diseases and deaths for the year 1925. See auditor's report for statement of receipts and payments.

Respectfully submitted,

THOMAS G. SMITH,
Superintendent.

REPORT OF SANITARY INSPECTOR

JANUARY 1st, 1926.

DR. FRED A. BARTLETT, *Health Commissioner, Quincy, Mass.*

DEAR SIR:—Herewith is respectfully submitted my report as Sanitary Inspector for the year ending December 31, 1925.

Pigs causing nuisance	2
No toilet facilities in house	2
Slaughtering poultry	3
Rats	3
Fleas or other insects in house	2
Unsanitary restaurant	1
Total	212

Pollution of Bathing Beaches

A number of complaints were received during the summer months relative to the pollution of the bathing beaches at Hough's Neck. One or two complaints were also received from the Adams Shore District. Upon inspection it was ascertained that on incoming tides and when the wind was from a certain direction that the water was covered with a film of black oil substance. Some of this substance was deposited on the beach and formed in masses which resembles tar. Samples were taken from the beach and from the water and sent to the State Department of Public Health for analysis. The source of the trouble, we have been informed has been located by the State Department and they are now working on a plan to eliminate the nuisance.

Privy Vaults

There remain in the city at the close of the year 473 privy vaults, 252 of which are in Ward 4. During the year 113 privies were abandoned on premises where inside plumbing was installed. There remain about 60 premises where privies are located which could be connected to the public sewer but for various reasons, usually a financial one, it has been deemed advisable not to force the owners to connect the premises during the year. Many of these will be connected during 1926 and probably 80 privies will be abandoned during the coming year. This will still leave almost 400 which is far in excess of the number in other cities of Quincy's population.

The public sewers should be extended in the West Quincy district so that premises may be connected and privies eliminated. It might be well to also consider the advisability of passing a regulation prohibiting privy vaults on any premises within the city without the approval of the Health Commissioner.

Odors From Industrial Plants

Some complaints were received relative to objectionable odors from certain industrial plants. At the request of this department, the Engineering Division of the State Department made an inspection at a plant at Norfolk Downs. Subsequent recommendations were made which if carried out will eliminate this existing nuisance.

Food Shops

Bakeries, restaurants, stores and other food shops were found to be in most cases, in excellent sanitary condition and inspections gave evidence of a desire on the part of owners to cooperate in every way. Some difficulty was found in getting one or two owners of candy kitchens to make certain sanitary changes but the changes were finally made.

Barber Shops

The barber shops of the city are as a general rule kept in an excellent condition and some owners have even gone farther than the regulations require.

Poultry Yards

Probably more complaints of unsanitary poultry yards were received during the year than for some time. With the rapid growth of the city during the past few years it is almost impossible to have a poultry yard in a residential section without having the yard close to a neighboring house.

In spite of careful attention on the part of owners there are invariably odors from the yards which result in complaints being filed in this office. The time is coming when this department will have to adopt the policy of refusing to grant permits to keep poultry in strictly residential sections.

A. A. ROBERTSON,
Sanitary Inspector.

REPORT OF SANITARY INSPECTOR

JANUARY, 1st, 1926.

DR. FRED A. BARTLETT, *Health Commissioner, Quincy, Mass.*

DEAR SIRS—Herewith is submitted my report of activities other than those as Sanitary Inspector for the year ending December 31, 1925.

Culture Materials

We maintained during the year culture stations at seven drug stores in the different sections of the city, where diphtheria anti-toxin, vaccine and various culture tubes could be secured by the physicians.

A supply of the serums was kept at the Dispensary and the culture tubes could also be secured at the Health Department office. A visit was made to each station practically every week to check up and replenish the supplies. Forty trips were made to the State Laboratory, Boston, to secure materials.

During the spring letters were sent to 53 local physicians informing them where culture materials could be secured.

Mortality and Morbidity Reports and Charts

During the last four months of the year there were kept morbidity charts for diphtheria, scarlet fever, measles and whooping cough. These charts showed the expectancy each week for the four diseases based on the average number of cases for the past five years and also the number of cases reported each week.

Morbidity reports by wards were prepared each month and these reports were consolidated at the end of the year for the annual report.

A list of causes of deaths according to the latest international list was prepared each month together with ages and birthplaces of decedents. These reports were also consolidated at the end of the year.

Newspaper Publicity

Commencing about the middle of October a weekly report of contagious diseases was printed in the local papers together with other information relative to departmental activities. In all 215 inches of space was given by the three papers.

Communicable Diseases

During the measles epidemic in the spring I assisted by placarding and quarantining approximately 300 cases. Following the discovery of cases of typhoid fever from a local milk supply an investigation was started by the contagious nurse and myself which was carried on for a period of three weeks.

Conferences

During the year I attended three meetings of the State Association of Boards of Health, two meetings relative to the new system of scoring health department activities and one conference on garbage disposal.

Venereal Diseases

VD. Cases Reported:

	Gonorrhea	Syphilis
To State Department*	15	2
To Local Department	5	6
Total	20	8

*Since October 1st, 1925, VD cases have been reportable in the first instance to the local department.

Of the 20 cases of gonorrhea reported 14 were males and 6 were females. Of the 8 cases of syphilis reported 5 were males and 3 were females.

Follow-up notices were sent in 34 cases and 18 follow-up visits.

During the summer the State Department was considering changing the regulations relative to the reporting of venereal diseases and asked the opinion of local departments. We submitted a questionnaire to 53 local physicians and the consensus of opinion was sent to the State Department for its consideration. A report of the questionnaire was read at a meeting of the State Association of Boards of Health and later the State Department sent out a similar questionnaire to physicians throughout the State.

A. A. ROBERTSON.

REPORT OF ACTING MILK INSPECTOR

JANUARY, 1st, 1926.

DR. FRED A. BARTLETT, *Health Commissioner*.

DEAR SIR:—I herewith submit the following report for the year ending December 31, 1925:

The following statistics refer to milk, cream, ice cream, butter-milk and oleomargarine consumed in the city of Quincy:

Dairies in the City of Quincy	
1 cow	20
2 to 5 cows	6
5 to 10 cows	5
11 to 25 cows	4
25 to 85 cows	9
Total number of dairies in Quincy.....	44
Total number of dairies in nearby towns.....	19
	63
Total number of cows in Quincy	304
Total number of cows in nearby towns supplying milk to Quincy	506
	810
Milk produced in Quincy and nearby dairies (quarts).....	8,927
Milk contractors processing and storage plants:	
In Quincy	7
In Braintree	2
In Randolph	2
In Holbrook	1
In North Hanover	1
In Milton	2
Teams, auto cars and trucks employed in distribution of milk, cream and ice cream	121
Milk consumed in city of Quincy per day (quarts).....	31,101
Milk produced in Quincy and nearby dairies (quarts).....	8,927
Pasteurized milk consumed in Quincy (quarts).....	23,083
Grade A baby and special milk in Quincy (quarts).....	2,012
Certified milk in Quincy (quarts).....	208
Per cent. pasteurized	70
Per cent. raw	30
Cream consumed in city of Quincy (quarts).....	1,178
Ice cream consumed in city of Quincy (gallons).....	2,931
Ice cream produced in city of Quincy (gallons).....	525
Buttermilk consumed in Quincy (quarts)	331
Number of dairies scored in Quincy and nearby dairies	63
Table Classification of Dairies Inspected and Scored	
Scoring 30 to 40	3
Scoring 41 to 50	16
Scoring 51 to 60	29
Scoring 61 to 70	11
Scoring 71 to 90	4
	63

Retail milk licenses issued stores, restaurants and bakeries..	396
Retail and producers ice cream licenses issued.....	259
Retail oleomargarine licenses issued.....	91
Milk producers licenses issued	39
Number of cows examined	925
New milk rooms and under construction.....	5
Cows stables new and remodeled.....	4
Cows examined for pus and streptococci	200
Milk samples taken for pus and streptococci.....	110
Milk samples taken for chemical test.....	692
Milk samples taken for bacteria	693
Total	1,495
Stores inspected and re-inspected	308
Milk rooms inspected and re-inspected	90
Ice cream parlors inspected and re-inspected	3
Dairies inspected and re-inspected	179
Restaurants inspected and re-inspected	16
Lunch rooms inspected and re-inspected	10
Ice cream samples collected	27
Milk dealers hearings	1
Ice cream manufacturing plants inspected and re-inspected..	23
Ice cream storage plants inspected and re-inspected.....	10
Milk processing plants inspected and re-inspected	15
Hotel inspected	1
Milk storage plants inspected and re-inspected.....	5
Milk complaints investigated	3
Sanitary inspections and re-inspections.....	62
Stores visited in regard to milk licenses	86
Revenue from milk, ice cream and oleomargarine.....	\$392.50
All milk sold in the city of Quincy is pasteurized or from tuberculin tested cows.	
Chain stores distributed on a cash and carry basis per day quarts milk	3,660

The price of milk for 1925 has remained the same as 1924: cash and carry chain stores, 12 to 15 for family distribution to certified 28 cents.

This branch of Public Health work has been conducted in substantially the same manner as last year, with the exception of tuberculin testing of all cows whose dealers sell raw milk. The aim in view has been to secure for this city a clean, fresh and healthful milk supply as well as one that would not fall below the standard prescribed by the law.

Respectfully submitted,

JAMES O'DOWD,
Acting Milk Inspector.

REPORT OF INSPECTOR OF MEATS AND PROVISIONS

DECEMBER 31, 1925.

TO THE COMMISSIONER OF HEALTH, *Quincy, Mass.*

DEAR SIR:—I submit herewith the report of the work in this office for the year ending December 31, 1925.

Inspections made 688

Meats and Foodstuffs as Unfit for Food

Beef (pounds)	30
Pork (pounds)	79
Lamb (pounds)	18
Ham (pounds)	32
Frankfurts (pounds)	12
Smoked shoulders (pounds)	6
Sausage (pounds)	5
Fish (pounds)	10
Poultry (pounds)	65
Salt Pork (pounds)	6
Oysters (quarts)	3
Lamb fries (pounds)	10

Financial Statement

Appropriation		\$105 00
Expended:		
Transportation	\$79 50	
Badge	2 62	
Telephone	10 00	
		92 12
Unexpended balance		\$12 88

The work of this office has increased very rapidly the past three years. More inspections have been made this year than ever before and more time given to inspection work.

Stores, markets and foodshops of all kinds are constantly opening in every section of our city.

We have at the present time some of the best stores and markets of any city of its population within fifteen miles of Boston.

Great care and more attention has been given to all markets and stores of all kinds, that they are clean and wholesome in accordance with the Department of Health.

With a population of over sixty thousand this year there have only been few complaints and those of a technical nature.

There are eighty chain stores at the present time, an increase of thirty this year. We have five hundred and forty-two grocery and provision stores in the city.

The values of fish as a food is being recognized each year, more and more.

Respectfully submitted,

HOWARD ROGERS,
Inspector of Meats and Provisions.

REPORT OF CONTAGION NURSE

JANUARY, 1st, 1926.

DR. FRED A. BARTLETT, *Health Commissioner*.

DEAR DOCTOR:

I herewith submit the following report for communicable diseases for the year ending December 31, 1925.

Diphtheria	131
Scarlet fever	129
Measles	819
Whooping cough	194
Chicken pox	59
Mumps	26
Typhoid fever	23
Anterior poliomyelitis	4
Lobar pneumonia	49
Influenza	165
Ophthalmia	1
Suppurative conjunctivitis	2
Encephalitis lethargica	1
Tetanus	2

Diphtheria

There were 131 cases reported, including adults, children of school age and pre-school age, from all wards of the city. Thirty-eight of these cases were taken to the Homeopathic Contagious Hospital at Brighton.

About 756 cultures were taken of members of the families as well as any possible contacts. By this means new cases, some of which were "carriers" were discovered. Two deaths resulted from this disease, one in the city and one at the hospital.

The "Schick Test" was not given to any great extent during the year by this department. Nine clinics were held with a total attendance of 15.

Scarlet Fever

Of the 129 cases reported, 20 were taken to the Contagious Hospital at Brighton. Very few of the cases were of other than a mild type. There were no deaths.

Measles

Eight hundred and nineteen cases were reported. Measles were prevalent during February, March, April, May and June. Wards one and two were affected principally. Eight deaths occurred from this disease, six in the city and two in the hospital. All were children.

Whooping Cough

One hundred and ninety-four cases reported, many more than last year. This disease claimed three lives, all female children under two years of age.

Chicken Pox

Only 59 cases reported.

Mumps

Twenty-six cases reported. Owing to the fact that many children are not seriously ill with the last two named diseases, a physician is not called, therefore the report of the case comes through the school nurses, or when the child applies for a certificate for re-admission into school. Occasionally the parents report the case.

Typhoid Fever

There was a marked increase in Typhoid Fever, 23 cases reported during the year. Eighteen of these were reported during September and October with one death. Much time was spent trying to locate the source of infection. Dairies were inspected, drinking water analyzed at the State laboratory and many widals and cultures taken. Several visits were made to the surrounding towns during the time spent in follow up work.

Two cases were attributed to the eating of clams. Seven cases were from unknown sources, had been living out of the city part of the time. There were two contacts from the above cases.

Ten cases were from a common milk source and two other cases were contacts in these cases. A man who was engaged in stripping milk at the farm for only three days, and then left, was finally located and found to have a suspicious widal. Although positive cultures could not be obtained, it is very probable that he was a temporary carrier and the original source of infection.

The State Department has listed him and will check up on him from time to time. He is not working in Quincy at the present time.

To prevent a recurrence of this, a notice was sent by the Health Commissioner to all dealers, that all new employees must be examined before commencing work. This examination is made without charge. Several examinations have already been made.

Anterior Poliomyelitis

Four cases all children were reported from Ward 6. Two of these cases were treated at the Children's Hospital.

Lobar Pneumonia

There were 49 cases reported. Total number of deaths was 32, seven of which were children under 10 years of age.

Influenza

Of the 165 cases reported, 155 were cases reported from the Battleships Rivadavia and Moreno. Quarantine was established on the boats by Dr. Fred Jones, physician at the Fore River plant. There were nine deaths from this disease.

One case of Ophthalmia and one case of Encephalitis Lethargica were reported.

Tetanus

Two cases were reported with two deaths.

Over 2,644 visits were made during the year in follow-up work. Approximately 756 cultures for diphtheria as well as 104 cultures for typhoid fever were taken. Certificates were given to children for re-admission to school through this office.

To help control the spread of the so-called minor contagious diseases, where a physician is not called in, we would ask the co-operation of the parents by reporting the case to the Health Department.

At this time I wish to thank Dr. F. A. Bartlett, physicians of Quincy and members of the Health Department for their co-operation.

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.,
Contagious Nurse.

REPORT OF QUINCY DISPENSARY

JANUARY 1st, 1926.

DR. FRED A. BARTLETT, *Health Commissioner.*

DEAR DOCTOR:—The following is the report of the Quincy Dispensary for the year ending December 31, 1925.

Cases of tuberculosis	277
Active	150
Arrested	56
Hospital	71
New cases reported during 1924	79
Pulmonary	68
Hilum	3
T. B. other	8
Disposition of new cases	80
Admitted to sanatoria	38
Died	19
At home	20
Moved away	2
Diagnosis revoked	1
Suspicious cases	14
Diagnosis changed to Hilum T. B.	4
Admitted to hospital	1
Discharged	1
Condition on discharge	
Arrested	16
Improved	11
Against advice	3
Dead	22
Absconded	1
Quiescent	2
Transferred to other sanatoria	2
Deaths	45
At sanatoria	22
At home	21
At Quincy City Hospital	3
Transportation provided	20
Clinics held	52
Attendance at clinics	289
Visits made	840
Referred to Welfare Department	5
Referred to city physicians	3
Clothing for sanatorium patients	10
Milk provided by Anti-Tuberculosis Association (qts.)	464
Cases closed and addresses forwarded to state department	22
Cases opened	7

Information obtained concerning private patients.....	25
Contacts of tuberculosis patients	
Contacts examined	79
Referred for X-ray	20
Result of X-ray	
Hilum tuberculosis	1
Tuberculosis adenitis	0
Pulmonary tuberculosis	0
Suspicious	18
Negative	1
Von Perquet tests	27
Positive	8
Negative	19
Cases referred to Dr. Harkins	2
Cases referred to dentist	1
Undernourished and contacts	
Attendance	399
Clinics held	48
Referred for T&A operation	7
Vaccination	5
Report of Summer Camp cases	
Admitted to Preventorium at Norfolk County Hos- pital Camp	8
Summer camps	
At Mansfield	5
At Foxboro	4

Eleven of these cases showed definite signs of tuberculosis by positive Von Perquet tests or X-ray examinations.

These cases remained at camp during July and August. At their discharge improvement in general condition and increase in weight were shown.

The good results obtained at the camp have been further increased by the attendance of these children at the Saturday morning clinics.

I understand that facilities are now available at Norfolk County Hospital for summer camps for both girls and boys and I would suggest that the city take advantage of this fact.

In closing I wish to thank you for your splendid cooperation during the past year together with the dispensary nurses, Miss Coleman and Miss Russell and the doctors of Quincy.

Yours truly,

C. J. LYNCH,

Dispensary Physician.

REPORT OF CHILD WELFARE NURSE

JANUARY, 1st, 1926.

DR. FRED A. BARTLETT, *Health Commissioner.*

DEAR SIR:—I herewith submit my sixth annual report as Child Welfare Nurse for the year ending December 31, 1925.

Because of the increase in attendance at the clinics it was found impossible to do very much follow-up work. About October 1st the Visiting Nurses of the Quincy Women's Club started this follow-up work and will carry it on until another nurse is appointed in our

department. However, 325 visits to babies and 10 to prenatals were made. Visits were also made to 12 boarding houses for infants.

A total of 39 cases were referred to hospitals for correction of physical defects as follows:

Quincy City Hospital	12
Norfolk County Hospital	1 (X-ray)
Children's Hospital	1
Boston Dispensary	25

Two hundred and twenty-one cases were referred from the clinics to family physicians.

There were 53 deaths in the city of babies under 1 year of age of which three were under clinic supervision. Two of these cases were on the rolls only two days and the other for only one month.

The causes of deaths were as follows:

Lobar pneumonia	1
Congenital heart	1
Premature	1

There were six weekly clinics held in the city as follows:

Monday at West Quincy, Ward 4.
Tuesday at Wollaston, Ward 5.
Wednesday at Atlantic, Ward 6.
Thursday at Quincy Centre, Ward 1.
Friday at Quincy Point, Ward 2.
Friday at South Quincy, Ward 3.

The South Quincy clinic was opened on October 16th through the kind co-operation of the Visiting Nurses of the Quincy Women's Club. These nurses also assisted at other clinics. During October the Quincy Square clinic was transferred to the Library at the Woodward Institute. The West Quincy clinic was transferred to K. of C. Hall and the Quincy Point clinic to the Fore River Club House.

The new meeting places are better adapted and conditions are much more satisfactory, especially as to heat.

A physician was in attendance at all the clinics excepting at West Quincy, and arrangements are being made to have a physician at this clinic commencing shortly after the beginning of the new year.

An increase of 2,527, over 50 per cent., was made in clinic attendance for 1925. The total attendance at the several clinics for the past three years is shown by the following tables:

	1923	1924	1925
Ward 1	1,517	2,272	2,334
Ward 2	739	653	844
Ward 3	290*
Ward 4	498	478	557
Ward 5	1,020	2,709
Ward 6	932	600	816
Total	3,686	5,023	7,550

*Opened October 16, 1925.

Every clinic showed an increased attendance over the preceding year. A total of 260 clinics were held.

The untiring attention of Dr. E. B. FitzGerald and his assistants is evidenced by the 3,643 complete or partial examinations made during the year. This was an increase of 1,336, or 58 per cent., over the examinations made in 1924.

There were 1,169 babies, all under two years of age, registered at the clinics.

During the week of October 7th a clinic was held at Howorth's Department Store. The visiting nurses assisted. There were 41 babies under two years of age weighed and mothers were advised. Advice was given in seven cases.

These clinics made it possible for many babies to come under the supervision of a physician and cannot but result in a decreased mortality rate among infants. The total number of births in the city during 1924 is not yet available so that the infant mortality rate cannot be definitely determined. It is probably slightly higher than for the year 1924, when Quincy had the lowest infant mortality rate in its history.

This slightly increased rate for 1925 is not, however, discouraging as it is almost an invariable rule that whenever there is a decided decrease (as there was in 1924) that the following year there is an increase, although it does not reach the high level of previous years.

At this time I wish to thank for their many courtesies to me and to the Child Welfare Clinics, the Health Department, the Quincy City Hospital, the Welfare Department, the Quincy Women's Club, the Wollaston Women's Club, and the physicians of the city. To Dr. FitzGerald and his assistants my thanks are expressed for their kind assistance and their untiring attention and interest in the future generation of citizens.

Respectfully submitted,

NETTIE DENTON FOWLER, R. N.,
Child Welfare Nurse.

REPORT OF TUBERCULOSIS NURSE

JANUARY 1, 1926.

DR. FRED A. BARTLETT, *Health Commissioner.*

DEAR DOCTOR:—I herewith submit to you my annual report for the year ending December 31, 1925, of the Tuberculosis Dispensary.

Cases of tuberculosis in city	277
Active cases	150
Arrested cases	56
Hospital cases	71
New cases reported during the year	79
Pulmonary	68
Hilum	3
T/B other	8
Disposition of new cases	
Admitted to sanatoria	38
Died	19
At home	20
Moved away	2
Diagnosis revoked	1
Suspicious cases	14
Diagnosis changed from suspicious to Hilum T/B	4
Admitted to hospital	1
Discharged improved not T/B	1
Condition on discharge from Sanatorium	
Arrested	16
Improved	11
Against advice	3
Dead	22
Absconded	1
Quiescent	2
Transferred to other Sanatoria	2

All homes were visited after death of a patient, and sanatorium cases and disposition of clothing advised etc. Sputum cups were provided free of charge to active cases.

Deaths	
At sanatoria	22
At home	21
Quincy City Hospital	3
Municipal hospitals	1
Transportation provided to sanatoria	20
Clinics held	52
Attendance at clinics	289
Visits made	840
Referred to Welfare Department	5
Referred to city physician	3
Referred to Dr. Harkins	2
Referred to dentist	1
Clothing provided patient entering sanatoria	10
Milk provided by Anti T/B Association (quarts).....	464
Cases closed, addresses forwarded to State department.....	22
Cases opened	7
Information obtained from doctors regarding condition of private patients	25

Contacts of Tuberculosis	
Contacts examined	79
Referred for X-ray	20
Results of X-ray	
Hilum	1
T/B adenitis	0
Pulmonary	0
Suspicious	18
Negative	1
Von Perquet Tests	27
Positive	8
Negative	19
All cases referred for X-ray were provided with transportation to the Norfolk County Hospital.	
Undernourished and Contact Clinic	
Attendance	399
Clinics held	48
Referred for T&A	7
Vaccination	5
Report of Camp Cases for summer	
Admitted to Preventorium at Norfolk County camp.....	8
Admitted to summer camps at Mansfield	5
Admitted to summer camps at Foxboro	4

Eleven of these cases showed a positive reaction to the Von Perquet test and definite X-ray findings consistent with tuberculosis.

These children were in camp for the months of July and August, and were discharged showing a marked physical improvement, with increase in weight. They have been and are at the present time regular attendants at the Saturday A. M. clinic, and are still improving.

It is to be regretted that the girls of this group were not as fortunate as the boys in obtaining ideal preventorium care. The need is very great for such a preventorium as Norfolk County Camp for the girls of this city.

In closing, I wish to extend my appreciation and thanks to Dr. Fred A. Bartlett for his help and interest in the work; also Dr. Lynch, the Dispensary physician, who personally attended to all the clinics, the physicians of the city and the personnel of the Health Department.

Respectfully submitted,

GERTRUDE T. RUSSELL, R.N.,
Dispensary Nurse.

REPORT OF VENEREAL DISEASE PHYSICIAN

JANUARY 1, 1926.

DR. FRED A. BARTLETT, *Health Commissioner.*

DEAR SIR:—Herewith my report of work performed in Venereal Diseases. Clinic at the Dispensary during the past year:

Total number visits to clinic	340
Total number of admissions to clinic	28
One visit only (for diagnosis)	8
Treated for syphilis	14
Treated for gonorrhoea	4

Lapsed treatment	3
Discontinued treatment, still under observation (syphilis)	2
Discharged cured (gonorrhoea)	2
Referred private physician	1
Referred correctional institution	1
Remaining under treatment gonorrhoea	1
Remaining under treatment syphilis	8
Injections mercury	215
Injections sulpharsphenamine	46
Wassermann tests	38
Urethral irrigations	20
Prostatic massage	8
Gyn smears	7
Urethroscopic examinations	2
Notices sent to V. D. patients	34
Follow up visits	18

In conclusion I wish to thank Mr. A. A. Robertson for his assistance in the important matter of "follow-up."

Yours truly,

EDWIN E. SMITH, M.D.

REPORT OF BACTERIOLOGIST

JANUARY 1, 1926.

DR. FRED A. BARTLETT, *Health Commissioner*.

DEAR SIR:—I have made the following examinations during the past year:

Smears for pus and streptococci	787
Smears for gonococci	16
Plate counts (milk)	673
Plate counts ice cream	24
Plate counts cream	2
Chemical examinations milk (routine)	688
Chemical examinations ice cream	24
Chemical examinations cream	2
Chemical examinations blood	25
Chemical examinations urine	42
Refractometric examinations milk	2
Milk solids evaporated and weighed	74

Total number examinations 2359

The above tabulation does not include the hours spent cleaning and sterilizing glassware, making culture media, water blanks, stains, volumetric solutions, keeping records and writing reports.

Respectfully submitted,

EDWIN E. SMITH, M.D.

REPORT OF CHILD WELFARE PHYSICIAN

JANUARY 1, 1926.

DR. FRED A. BARTLETT, *Health Commissioner*.

DEAR DOCTOR:—The following is my report of the work that has been accomplished in the Child Welfare Clinics during the past year.

For the figures as to growth of the clinics, mortality, cases referred to other agencies, etc. I shall refer you to the report of the Child Welfare Nurse. There are certain facts that may be of interest that I shall discuss.

There were approximately six times as many babies referred to private physicians than to public health agencies. The clinic infant mortality is even lower than the low figure of last year (somewhat less than three per thousand live births). The three deaths were of diseases commonly considered as non-preventable and all three babies had attended the clinics for a short period.

The policy of putting physicians in as many clinics as possible produce a marked increase in attendance.

The comparative tables of percentage increase for 1925 and decrease for 1924 show the results attained

	1924	1925
Ward I	49% increase	2% increase
Ward II	11% decrease	28% increase
Ward III	No clinic	
Ward IV	4% decrease	16% increase
Ward V	Open for six months	
Ward VI	35% decrease	36% increase
Total	35% increase	50% increase

During the year the policy of putting physicians from the graduate school of Harvard Medical School in charge of the clinics in Wards II, III, and VI has proven highly successful.

The infant mortality for 1924 was the lowest in the history of Quincy. The figure of 53 put Quincy in second place (tie with Berkeley, California) in that group of American cities between the population figures of 50,000 to 100,000.

The fifty-three deaths among children during the first year of life occurred as follows:

Deaths Population (1920)

Ward I	11	9,185
Ward II	14*	8,415
Ward III	7	8,450
Ward IV	3	5,834
Ward V	8	9,161
Ward VI	10	6,927

It is easily seen that the lowest infant mortality is in Ward II and that the lowest mortality is in Ward IV providing, of course, that we assume the baby population as proportionately the same in each ward.

Of the fifty-three deaths twenty-five occurred during the first two weeks of life. This figure is not quite so high as that for 1924. There were forty-six stillborn babies. On analyzing the different causes of death as given in the death certificates one notices only five due to contagious diseases and only three due to gastro-intestinal diseases.

In the publication of the American Child Health Association entitled "A Health Survey of 86 Cities" Quincy is ranked among the upper 29 cities in infant and pre-school health activities for 1924. The ranking would not be so good for 1925, however, because on ac-

*One death was that of a visiting baby.

count of the large clinic attendance there is now no pre-school health activity whatsoever.

Due to the interest of the Department of Mental Hygiene of the State Department of Health it is now possible to predict the establishment of a "Habit Clinic" for children between the ages of two and six. This will be managed entirely by the personnel of the State Department of Mental Hygiene.

Recommendations for Improvement

1. Securing of some more suitable location for the Atlantic Clinic.

2. Establishing of a Pre-School Age Clinic. Ninety percent of the cases of measles and whooping cough occur under the age of five as well as more than 95% of the deaths caused by these diseases. Almost the same is true of diphtheria and scarlet fever. One-fourth of all deaths occur before the end of the fifth year, or six times as many as in the next ten years of life.

3. Establishment of a "Posture Class" for children suffering from postural defects.

4. Establishment of a "Health Centre" for the correlation and centralization of tuberculosis prevention, dental hygiene, pre-school clinics, infant welfare clinics, posture and nutrition classes, habit clinics and diphtheria prevention.

For their interest and assistance in this far-reaching and logical beginning of personal health, as far as Quincy's babies are concerned and therefore the beginning also of public health as far as Quincy is concerned I wish to thank Mrs. Fowler, the Child Welfare Nurse and the personnel of the Health Department, the Fore River Club, the West Quincy Council of the K. of C., the Presbyterian Church of South Quincy, the M. E. Church of Atlantic, Woodward Institute, the Quincy Women's Club (in particular the Visiting Nurses Committee) and the Wollaston Women's Club.

Very truly yours,

EDMUND B. FITZGERALD, M.D.

Child Welfare Physician.

REPORT OF PLUMBING INSPECTOR

JANUARY 1, 1926.

DR. FRED A. BARTLETT, *Health Commissioner.*

DEAR SIR:—As inspector of plumbing I have the honor to submit my thirty-second annual report.

Number of applications received from January 1, 1925, to

December 31, 1925..... 1,463

Received for permits \$3,448

Nature of New Buildings for Which Permits Were Issued

		<hr/> \$4,591 75

Sealed proposals were received and taken under advisement on September 25th for piling, foundation, structural steel, artificial stone, Quincy granite and steel sash.

September 30th the steam digger was excavating the grading and removal of trees in progress.

The pile drivers arrived on October 13th and the work completed November 12th, on November 13th started marking and placing forms for footings for foundation and concrete work started November 25th.

Foundations nearly completed December 31st.

The Highway Department installed a surface drain from East Squantum street to Hancock street and gravel fill on the lower level opposite the East Squantum street entrance.

REPORT OF SEWER DIVISION

For financial statment see Auditor's report.

Construction work has been carried on through the whole season, and the accompanying list shows where the work has been done.

During the year 4.072 miles of main sewers have been built, making a total of 103.39 miles built in the city to date.

In 1924 the number of house connections showed a great increase, but during this season 1925 the increase has been greater.

We have made in 1925, 749 connections (totalling 34,074.40 feet or 6.45 miles), with the main sewers connecting 754 buildings as follows:

Single houses	498	Churches	3
Two-family houses	176	Manufacturing	4
Three-family houses	6	Service stations	3
Apartm't houses (4 & over)	16	Garages	3
Business blocks & mercantile	28	Hospitals	2
Store and tenement blocks	12	Bandstand (in park).....	1
Theatres	2		

Connections by Wards, 749

Ward 1	142	Ward 4	122
Ward 2	71	Ward 5	193
Ward 3	72	Ward 6	149

Average cost per connection	\$45 94
Average cost per foot	1 009
Average length per connection (feet).....	45 49

WILLIAM L. FOSTER,
Treasurer.

Trustees of Weymouth Fore River Bridge,
Gentlemen:

I have examined the accounts of William L. Foster, Treasurer of the Trustees of Weymouth Fore River Bridge, for the year 1925, reconciled the bank account, and I hereby certify that the same are correct with proper vouchers.

(Signed) J. IRVING BOTTING,
Town Accountant.

Hingham, December 31, 1925.

REPORT OF CITY PLANNING BOARD

The City Planning Board report for 1925 will be published during June, coincident with the Tercentenary History of Quincy.

There will appear in it the concluding chapter of the latter publication contributed by this board; also reference to its participation in the Tercentenary celebration. The extensive work required in compiling the History has prevented its issue before, hence the delayed report.

Seven months of the Planning Board's work in 1925 were devoted exclusively to joint endeavor with the Citizens' Committee upon Zoning.

REPORT OF THE TRUSTEES

To His Honor the Mayor of the City of Quincy:

The Trustees of the Thomas Crane Public Library submit herewith their fifty-fifth annual report.

There has been a steady and healthy growth of the library during the year 1925, this being reflected in the increased circulation as well as in the greater number of volumes in the library. It is gratifying to be able to report that the unit cost per circulation is even less than heretofore, notwithstanding increased general expenses.

The service rendered the City Hospital meets a long felt want and the General Palmer Branch, the most recent one opened, takes care of the needs of the Adams Shore and Germantown districts. Made up, as our city is, of so many widely scattered communities, our library system has a much different problem for solution than that of the average municipality. However, as soon as a branch can be established at Montclair, the completion of which will make a total of ten, each locality will have library facilities readily accessible.

In the preparation for the tercentenary exercises, wide use was made of the library which proved of great value to those having need of data and information of historic importance. During tercentenary week in June, a new regulation flagpole erected on the library lawn was dedicated, at which time Rev. Mr. Sankey, one of our board, made a generous gift to the library of a garrison flag for use in fair weather and a storm flag for inclement weather.

In September, Mr. Clark, who had always taken a keen interest in his duties as trustee, resigned as a member of the board, his business interests necessitating his removal from Quincy. In December the library lost a valuable member of the staff in the death of Miss Barstow. Talented and devoted to her work, of a most kindly nature, she had made a host of friends who feel her loss deeply.

The greatest problem the trustees have had to solve was to obtain a successor to Mr. Temple, who resigned in December to become librarian at Reading, Pa. The departure of Mr. Temple to a new field of endeavor has brought forth expressions of regret from our citizens generally. His interest in this community has been widespread and his influence has been everywhere felt. Not merely content with placing our library system on so high a plane that its reputation has spread throughout the different states, he has given unselfishly of his abilities and time whenever and wherever called upon, and by so doing has endeared himself to us all. The loss to Quincy will be the gain of the community he goes to serve.

To obtain a new librarian was all the more difficult because of the well-known fact that other parts of the country are hiring library talent away from New England. After interviewing numerous candidates and reviewing the records of others, the board selected Galen W. Hill, who has been librarian of the Millicent Library at Fairhaven, Mass., for the last twelve years. He brings a valuable education and training in the library field and a successful experience to his work in our city.

Respectfully submitted,

GEORGE E. ADAMS, *Chairman,*

GEORGIANA CUSHING LANE, *Secretary.*

EDWIN F. LIVINGSTON, *Treasurer.*

REPORT OF LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

I submit below the Librarian's report for the year ending Dec. 31, 1925.

The statistical summary for the year indicates a healthy growth. There has been an increase of ten per cent. in the number of books used in the home; but many of the results achieved by a public library cannot be expressed in figures. A notable instance of that is the service established this year at our local hospital. Although instituted late in October, it has already been the subject of favorable comment publicly expressed by the medical profession. It is welcomed also by the nurses as well as by the patients for whom it is more directly designed. Properly selected books have an unquestioned therapeutic value aside from lightening the tedium of the monotonous hours of convalescence. This advance brings us one step nearer the goal upon which our eyes have been fixed, the meeting of every right and proper request for the printed page by residents in the community.

What has been said of the work at the hospital applies also to that done with the classes in Americanization. The latter has gone on now for four or five years without much change. It has not added appreciably to our statistics; but, if discontinued, I believe that it would be felt to be a distinct loss. I believe that we have left with each member of these classes seeking the privilege of citizenship a definite idea of what the public library can and will do for them.

Our relations with the grade schools have become even more closely cemented than before. The classes have come to the library as usual for a series of lessons in its resources and their use. The classroom collections have been enlarged in size and increased in number until more than one hundred and fifty teachers are making use of collections which total some seven or eight thousand volumes, and which have circulated nearly sixty thousand volumes for home use. In addition to this there is a very considerable use of the books in the rooms which does not appear in the tabulations. We continue to hear enthusiastic reports from the teachers and masters concerning the far-reaching influence of the library upon the pupils of the city.

Our institution has made itself felt in a new direction this past year. Quincy has celebrated the tercentenary of her founding in a dignified and notable manner. In making preparation for this celebration officials and committeemen have made large use of the resources of our Quincy Room. Here have been gathered the works of the many authors who have at one time or another claimed Quincy as a home. Every scrap of information available concerning Quincy history is also treasured here with the result that it has become a distinctive feature of the library of which we are proud. We hope that the residents of the city who have printed material of this nature will be more ready to give it into the keeping of the library now that it is known that it will be preserved with proper care for the use of posterity.

In June a small branch library was established at 512 Sea street, for the accommodation of the residents of the Adams Shore district. It was named for General Palmer, a resident of Germantown, who contributed liberally of his services and fortune to the Colonial

cause at the time of the Revolution. He died in poverty. The naming of the branch is an effort toward saving from an undeserved and pathetic oblivion the name of a worthy citizen of Quincy.

Attempts were also made to open another branch in the populous district around Montclair. Unfortunately, no suitable building was available; but it is hoped that plans now on foot will mature successfully during the coming year. There is no more promising field for expansion of our library service than in this rapidly developing area.

There have been an unusual number of changes in the staff. In February Miss Kingman came from the library at Brockton to take charge of the Children's Room in place of Miss Files, who had left to accept a position in the Springfield library at an advanced salary. The same month Miss Warren was advised by her physician that a change of climate was necessary to her welfare, and we regretfully accepted her resignation. In June Miss Cameron was obliged to return to her home in New York State because of illness in her family; and Mrs. Payson gave up her half time work in the catalog room to devote her whole time to home duties. In September Miss Akin left to enter upon a year of study at the Pratt Institute School of Library Science. To fill these vacancies Miss Dinegan and Mrs. Connolly were appointed to staff positions in September after service as apprentices and a course in the Simmons College Summer School. Miss Stearns and Miss Thompson, graduates of the New York Public Library School in the class of 1925, also assumed duties with us this fall. Miss Stearns is largely busied in the catalog room, while Miss Thompson's particular share in the library is the organization of the service at the Quincy Hospital.

On December 20th we were pained to learn of the death of Miss Barstow who had been with us since 1922. Miss Barstow had qualities of mind and heart which especially endeared her to her associates in work as well as to the public with whom she came directly into contact. The quality of her service was high; but it was so quietly and unostentatiously rendered that it was not fully appreciated until missed. The library and all branches were closed in respect to her memory during the hours of her funeral service.

The writing of this report is my last official act as the head of this library. Before it is set in type I shall be at work amid other scenes. I cannot lay down my pen without expressing my appreciation of the people with whom I have worked in Quincy. The borrowing public have always been distinguished by their tendency to praise and appreciation rather than to fault finding. And I have fully realized that I was the recipient of praise that was more than half rightfully due my staff. Without their loyal, cheerful co-operation the library could not possibly have achieved the very creditable record it has for results accomplished with meagre funds. It is not easy to relinquish such an organization to another without a pang of jealousy. The various Boards of Trustees under whom I have served these seven years have seemed to do everything in their power to smooth the rough places. None of them has ever shown a tendency to adopt an obstructionist policy. Always have they adopted the attitude of helpful, sympathetic advisers. To all public, staff and trustees, I bid a reluctant farewell.

Respectfully submitted,

TRUMAN R. TEMPLE, *Librarian.*

REPORT OF CITY SOLICITOR

HON. PERLEY E. BARBOUR, *Mayor of Quincy.*

JANUARY 4th, 1926.

DEAR SIR:—During the past year the City Solicitor has carried on the work of the Law Department of the city in accordance with the requirements of the statutes and ordinances in relation thereto.

Respectfully submitted,

JOHN D. SMITH,
City Solicitor.

REPORT OF INSPECTOR OF BUILDINGS

JANUARY 1, 1926.

HONORABLE PERLEY E. BARBOUR, *Mayor of Quincy, Quincy, Mass.*

DEAR SIR:—I herewith submit the nineteenth report of the Building Department for the year ending December 31, 1925.

During the year the business of this department shows an increase of 45 per cent. over that of the year previous.

The number of living apartments erected during the year was 1,163. Seventy-seven business blocks have been erected on our main thoroughfares adjacent to community centers, thereby creating a condition which is both desirable and convenient for the home owner and at the same time a desirable addition to the revenue of the city. Only two of these structures were erected in strictly residential sections. This condition is not a desirable development and should, I believe, hereafter be controlled by a carefully prepared ordinance regulating the location of these structures. The City Council have appropriated the sum of \$8,500 for this purpose, and it is hoped that the committee appointed will prepare an ordinance that will be satisfactory to the people and at the same time wisely control the future development of our city. It has been the policy of the Inspector of Buildings to revise the Building Ordinance at intervals of three or four years, and this would probably have been done this year, but it was thought advisable to await the result of the work of the Zoning Committee.

During the fall of the past year the Building Department was assigned a separate office, and Miss Agnes H. Monahan was appointed clerk. These improvements are much appreciated and the department is much better equipped to handle the increased business for the future. As the city is developing very fast it is necessary that additional help should be employed to assist in the inspection of the various structures, and I do respectfully request your honor that a deputy be appointed in the near future to provide for this condition.

Tabulations of Building Operations for 1925

Ward 1

Respectfully submitted,

WARREN S. PARKER,
Inspector of Buildings.

REPORT OF ENGINEERING DEPARTMENT

QUINCY, MASS., January 1, 1926.

To His Honor the Mayor and Members of the City Council:

DEAR SIR:—I herewith respectfully submit the twenty-sixth annual report of the Engineering Department for the year ending December 31, 1925.

Lines and grades were given on request of property owners in all parts of the city.

Approximately 100.

Rebuilding Streets

On account of our tercentenary celebration in June, 1925, most of our rebuilding was done before this time.

Hancock Street was rebuilt from north of Beale Street to Merry-mount Park, a distance of about 2,700 feet. This was done by contract by the A. G. Tomasello Company and was a recut paving block on a four inch concrete base.

West Elm Avenue from Elm Avenue to Billings Road was rebuilt with a macadam road, also East Elm Avenue to Huntington Square.

Amiesite

Amiesite was used on Copeland, Willard and Water Streets over the granite block pavement which opened a new smooth road artery into South Quincy from East Milton, thereby relieving part of the traffic on Adams Street.

Amiesite was also used on Adams Street from Newport Avenue to Hancock Street and on Hancock Street in Quincy Square from Saville Street to Granite Street.

Amiesite was also used on some sidewalks.

New Streets

There were approximately 11,376 feet of new accepted streets constructed (see schedule). This work was started in July and was completed about the first of November.

Surface Drains

There were approximately 17,840 feet of storm drains placed in various streets (see schedule).

The drain on Newport Avenue was a very needed piece of drainage, relieving a very serious situation at Lincoln Avenue where all the surface water from the northerly side of Wollaston Hill was flowing onto the railroad tracks causing washouts.

Sewers

Lines and grades were given on 4.04 miles of sewer which was laid during the year.

Plans were also made of over five miles of sewer which was laid in 1924 for assessment purposes.

Assessment Plans

Part of the assessors' plans were added to by placing frontages on all of the lots and putting plot numbers on each parcel.

There were over 3,600 new transfers of properties that were also properly placed for the Assessors Department.

Cemeteries

There was an additional part of the new cemetery at Mt. Wollaston staked out into lots and a fence placed on the Merrymount Road side.

Permanent Sidewalks

There were 5,930 square yards of Granolithic sidewalks placed on various streets throughout the city (see schedule).

Public Buildings

The New Junior High School at the corner of Hancock and East Squantum Streets was started. Borings were taken on the site and it was found necessary to put piles under the foundations.

The New Police Station on Sea and Valley Streets was also started and the foundations are practically all in.

A maternity ward is also under construction at the City Hospital which is a much needed addition to this institution.

For financial statement see auditor's report.

Respectfully submitted,

WALLACE S. CARSON,
City Engineer.

THIRTY-SIXTH ANNUAL REPORT OF THE QUINCY CITY HOSPITAL

BOARD OF MANAGERS

CHARLES A. PRICE, <i>Chairman</i>	Term expires 1926
MAURICE P. SPILLANE, <i>Secretary</i>	Term expires 1929
GEORGE TAYLOR.....	Term expires 1927
JOHN O. GOLBRANSON.....	Term expires 1928
HERMAN G. BRYAN.....	Term expires 1930

REPORT OF THE BOARD OF MANAGERS

To His Honor, the Mayor and the President and Members of the City Council.

GENTLEMEN:—The Board of Managers of the Hospital Department respectfully submits its report for the year ending December 31st, 1925.

The personnel of the Board was entirely changed on January 5th, the members being:

Charles A. Price, Chairman.
Maurice P. Spillane, Secretary.
George Taylor.
John O. Golbranson.
Herman G. Bryan.

Early in the year we met with a severe loss in the death of Miss Etta May Bagley, the efficient and beloved Superintendent of the hospital.

During Miss Bagley's illness Miss Ruth J. Adie, formerly assistant to Miss Bagley, took charge, and her work was so satisfactory that the Board offered her the position of Superintendent, and she is now in active service.

We were obliged to accept, with deep regret, the resignations of Drs. Elmon R. Johnson and Francis Ramon Burke from the staff, both of whom have given many years of faithful and efficient service to the hospital.

The great need of the hospital for a long time has been for a proper building and we now have nearly finished a building with eighty-one (81) beds, one floor of which is for children and one for maternity cases.

Our X-Ray Department has been greatly enlarged during the year.

Dr. Wheatley felt that he must resign, and we engaged Dr. Charles Whelan of Boston to act as Roentgenologist, and are now giving X-Ray treatments.

We now very much need a nurses' home, large enough to house

all of our nurses and maids, as the present arrangement is unsatisfactory from every standpoint. We sincerely trust that you will give this matter early and favorable consideration.

We gratefully acknowledge your hearty co-operation, the generous contributions and the active and helpful interest of the Hospital Aid Association, the churches and other organizations of the city, and the many words of appreciation and suggestions from our patients and citizens.

The financial statement of the operations of the past year, together with the report of the Superintendent, are annexed hereto.

CHARLES A. PRICE,
MAURICE P. SPILLANE,
GEORGE TAYLOR,
JOHN O. GOLBRANSON,
HERMAN G. BRYAN,

Board of Managers.

REPORT OF THE SUPERINTENDENT

To the Board of Managers, Quincy City Hospital:

GENTLEMEN:—I herewith submit to you a report of the work done at the Quincy City Hospital during the year ending December 31, 1925:

Statistical Information

Patients in hospital January 1.....	68

Anne Foy Billings	Elsie Rice Hay
Esther M. Burns	Barbara Emerson Hobbs
S. Marguerite Cookinham	Etta May Linnehan
Lottie Alma Kristina Dahlberg	Eleanor Lorette
Agnes Martin Fraser	Mary Elizabeth Murphy

Charlotte A. Nash

It is with great sorrow that we record the loss of our former superintendent, Miss Etta M. Bagley, who died April 24, 1925. We have lost a true friend and a wise councillor.

We wish to express our appreciation to the Hospital Aid Associations for their help, which has been most cheerfully given, and to the attending staff for their assistance in the lecture room and for their professional services given to the nurses.

Respectfully submitted,

RUTH J. ADIE,
Superintendent.

INFORMATION RELATIVE TO ADMISSION OF PATIENTS, RATES, ETC.

Application for the admission of patients to the hospital should be made to the superintendent. Patients desiring admission should be referred by a physician.

Accidents are admitted at any time.

The hospital maintains an ambulance for transportation of patients within the city limits. The ambulance may be obtained for special service by application to the superintendent.

Single rooms, \$4.50 to \$5.00 per day.

Ward bed (private) \$3.00 per day.

Ward bed (service) \$3.00 per day.

Additional Charges:—

Operating room, \$5.00 to \$10.00.

Delivery room, \$5.00.

Etherizing fee, \$5.00.

Laboratory fee, \$5.00.

Plaster casts or special dressings, \$3.00 to \$5.00.

Ambulance, \$3.00.

Board of special nurse, \$1.00 per day.

Proprietary drugs or unusual or expensive preparations, mineral waters, liquors, etc., will also be charged extra.

Radiographs will be taken every day by appointment, with the exception of Sunday, Wednesday afternoon and holidays.

Appointment for radiograph of the gastro-intestinal tract should be made for either Monday, Tuesday, Thursday or Friday.

X-RAY REPORT

To the Superintendent and Board of Managers Quincy City Hospital.

I herewith submit my report relative to the work done by the X-ray Department for the year 1925:

I. New Laboratory—A large floor space in the basement directly under the operating suite was divided into six rooms arranged in such a manner as to best utilize the X-ray equipment, take care of ambulatory patients with the least possible trouble and insure proper privacy. Besides the above rooms, an ample waiting room was provided by the long corridor which communicates conveniently with both old and new buildings. Two dressing rooms and a toilet complete the laboratory.

II. Equipment—The very latest machines and devices were purchased to equip the above rooms with the idea of making the Quincy City Hospital X-Ray Department modern in every respect. This equipment was divided as follows:

Room A. A Victor Snook X-ray machine for treatment work—both deep and superficial—with tube stand, couch, etc.

Room B. A horizontal and vertical fluroscope conveniently arranged not only for the usual gastro-intestinal and chest examinations, but also for the localization of foreign bodies and for the reducing of fractured bones.

Room C. A Victor X-ray machine for radiographic work only was installed in this room, which contains also a stereoscopic tube stand, Bucky diaphragm, stereoscopic shifting device for chest work and other apparatus necessary for good X-ray results.

Room D. In this room was placed all the material necessary for developing, fixing and drying films. A soapstone developing tank, a lead-covered closet for protecting films, and electric fans for drying are part of this equipment.

Room E. Illuminated boxes where thirty-six films of the largest size can be placed on exhibition at one time are the main equipment of this room. Here we also have a fireproof steel filing cabinet and a device for viewing stereoscopic films.

Room F. Reserved for an office and bookkeeping room.

A portable bedside unit capable of doing the very best X-ray

work was also provided. This unit is used for those patients who are too sick to be moved to the laboratory.

Service—A twenty-four-hour service is provided by the department.

Personnel—Two trained technicians, Misses Ann Thompson and Pearl Kennedy, do the bulk of the radiographic work now, where one was formerly employed. The increased amount of work and the desire to give the very best service made this increase in personnel necessary.

The following is a statistical report of the department:

House patients	591	Hips	30
Out patients	1,166	Pelvis	70
		Shoulders	72
Total	1,757	Teeth	20
Fluoroscopies	101	Treatments (Whooping-	
Gastro-Intestinal tract....	130	cough)	40
Genito-urinary	67	Eczema	8
Gall bladder	68	Caries of spine	0
Upper extremities	390	Psoriasis	10
Lower extremities	439	Acne	8
Skulls	190	Sarcoma	5
Chests	140	Carcinoma of breast	4

In closing I desire to express my sincere thanks to the administration and staff for their cordial cooperation during the past year.

Respectfully submitted,

CHARLES WHELAN.

REPORT OF THE QUINCY HOSPITAL AID ASSOCIATION OFFICERS

<i>President</i>	MRS. CARLE R. HAYWARD
<i>Vice-President</i>	MRS. PAUL C. BLACKMUR
<i>Secretary</i>	MRS. FREDERICK H. BRESLYN
<i>Treasurer</i>	MRS. GEORGE F. HALL

The Quincy Hospital Aid Association meets once a month at the Junior High School sewing room during nine months of the year. The dues are but one dollar a year. We do hope that with the added facilities at the hospital which we will have in the near future many more women will be interested enough to give up one afternoon a month of their time for this valuable work. We are always happy and eager to welcome new workers and members.

At Christmas our association provided gifts, candy, cigars and toys for the patients. During the year our members have visited each month, taking a bit of personal cheer with them. Subscriptions to three magazines were given to the nurses and their pins were presented to them at graduation. We only wish our financial condition would allow us to do more for them.

Plans are now being made to raise money for the Scholarship in Public Health Nursing.

We are very grateful to many church societies for the sewing they have accomplished at their meetings. In this way a really large group of women is working for the hospital.

The association always stands ready and willing to help and encourage the Superintendent in her ever-increasing duties.

MARY M. HAYWARD,
President.

REPORT OF THE WOLLASTON BRANCH OF THE HOSPITAL AID ASSOCIATION OFFICERS

<i>President</i>	MRS. GILBERT M. FOX
<i>Vice-President</i>	MISS ADA HINKLEY
<i>Secretary</i>	MRS. HERBERT C. LOWE
<i>Treasurer</i>	MRS. WILLIAM SIMMONS
<i>Auditor</i>	MRS. EDWARD A. TENNEY
	MRS. WILLIAM A. ROBB
<i>Directors</i>	MRS. ELLA BROWN
	MRS. G. G. SWANSON

This association has held all-day sewing meetings regularly from January until December with the exception of July and August. A group of earnest, faithful women sew from ten o'clock in the morning until four-thirty in the afternoon on all kinds of hospital equipment. In this way many articles are completed and returned to the hospital for their use and comfort.

At each meeting a report is given by a member of the visiting committee. In this way the association is kept in close touch with hospital needs and conditions.

At Thanksgiving we try to spread a little cheer by placing flowering plants in each ward and at Christmas by decorating ever-green trees and hanging bright-colored bags of candy for each patient obliged to stay through the holiday season.

This association welcomes any opportunity to be of service to our hospital and hopes to accomplish bigger and better things the coming year.

FAYOLINE G. FOX,
President.

REPORT OF SCHOOL COMMITTEE

To the Citizens of Quincy:

The School Committee presents, herewith, its report for the year 1925.

The outstanding event of the year has been the celebration of the 200th anniversary of the settling of Quincy—including patriotic addresses, an imposing parade, and a magnificent pageant.

In each of these activities the schools—both pupils and teachers—took a large and important part. About 700 pupils of grammar grades formed an effective living flag. Pupils of the High School acted as ticket takers and ushers at the pageant, which was viewed by all pupils at very much reduced rates. The sale of commemorative medals was entrusted entirely to the children of the schools.

In the parade, about 1,500 boys marched, led by the High School

band. Each school, in addition to its marching pupils, was represented by a float which most appropriately portrayed some event in the history of the locality in which the school is located, or in the life of the man for whom the school was named.

Too much praise cannot be bestowed upon the principals, teachers and pupils for the time, thought and energy devoted to the planning and preparation of these floats.

This celebration was of great historic interest and of educational value to all concerned.

In the matter of housing of the pupils we have had a year of comparative comfort and satisfaction, but in our rapidly growing community it seems impossible to keep pace with the increasing school population.

The new High School has completed its first year of usefulness and has been all that could be desired.

The old High School building has been used for Junior High purposes and has relieved the pressure in three of the grammar school buildings.

Early in the year the Frank Irving Cooper Corporation was engaged to prepare plans for a new Junior High building to be placed on the lot of land recently acquired at the junction of Hancock and Squantum streets. These plans were carefully considered and studied and finally accepted. The foundation for this building has been completed this fall and the finished building should be ready for occupancy next year.

This building will be admirably adapted to its uses and should relieve, for some time, the crowded conditions of the schools of the northern part of the city. It is urgently hoped that the coming year may see a start made on another Junior High building on the "Nightingale" lot at South Quincy.

An interesting occasion has been the dedication of a statue of a "Doughboy" on the Coddington School grounds. This statue was designed by a former Coddington School boy—Bruce Wilder Saville—and is an accurate representation of the accoutrements of a soldier of the Great War and by its force and virility is a constant inspiration to the youth of Quincy.

We have lost from our teaching force during the past year perhaps not as many as usual, but it has been a loss we could ill afford.

Mr. Leroy L. Woods, who had been for many years a principal of our schools and of late years assistant superintendent in charge of special activities, resigned to accept a more remunerative position. He has proven himself to be a capable and hard working executive and we are sorry to lose his services, but wish him success in his new field.

Mr. Thomas B. Pollard passed away last June after a long illness. Mr. Pollard had been connected with the schools of Quincy for 38 years and the Committee wishes here to re-affirm its appreciation of him as a most upright citizen, an excellent educator, and an inspiration to the boys and girls with whom he came in contact.

Miss Annie E. Sandison, who had taught for six years in the Willard School, died in August last. Her death was a distinct loss to the teaching force.

Miss Ellen B. Fegan, who had taught in the Willard School since 1875, has passed away after a short illness. She was the best example of a real teacher—beloved alike by pupils and parents.

Miss Hatch, Mrs. Humphrey and Miss Malone, who had taught

for many years with Mr. Pollard at the Washington and later at the Daniel Webster School, have been retired at their own request. It is our earnest hope that they may long enjoy their well-earned rest after the many years of faithful work.

Mr. George O. Shirley, janitor of the John Hancock School, has resigned after a long and faithful service in the interest of the city. The Committee records its appreciation of his good work.

The subject of the proper use of school halls has been given exhaustive study by a committee appointed for that purpose and their report is now under consideration. While it is thought desirable that this public property should be used in every way compatible with public or educational interests, yet the Committee does not in any way wish to enter into competition with any privately owned halls for private entertainments.

The matter of a Dean for Girls in the High School has also been considered, and at a meeting of the School Committee in December, it was voted, "to create such a position and to fill the same as soon after the new year as a proper person for the position could be secured."

The Committee has before it various requests for salary increases which are being given careful and intensive study preparatory to a report on the requests made.

These and other matters of public interest will be found in the more extended report of the Superintendent, and the Committee urges on all the citizens the careful study of that report which it deserves. It will be found to be interesting and instructive, even to the last table of statistics.

It would seem to be the duty of the citizens to acquaint themselves with the work of the schools of their city and with the way in which a large proportion of their tax levy is spent.

The foregoing report, prepared by a special committee consisting of Nathaniel S. Hunting and Robert E. Foy, was adopted and ordered printed as the annual report of the School Committee for 1925.

FRED H. NICKERSON,
Secretary of School Committee.

IN MEMORIAM

THOMAS B. POLLARD

Thirty-eight years a Principal
in the Quincy Schools

Born August 21, 1859

Died June 25, 1925

Born October 26, 1889

Died August 21, 1925

ELLEN B. FEGAN

Fifty years a teacher
in the Willard School

Born April 29, 1856

Died October 22, 1925

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Quincy:

The following report aims to present such facts and discussion thereon as are necessary for an intelligent judgment regarding the efficiency with which the school interests of the city have been managed during the past year.

Enrollment and Attendance

During the school year ending with June, 1925, there were 11,779 different pupils enrolled in the regular public day schools of Quincy. This is an increase of 7.2 per cent. over the enrollment for the previous year.

The regularity of the daily attendance of the pupils during the past year was 93.9 per cent. This is slightly higher than the average for the state at large.

In view of the already overcrowded condition of the school buildings throughout the city, the increase of 7.2 per cent. in the number of pupils in our regular day schools, as noted above, suggests the necessity of the earliest possible action by the city to enlarge its school plant. We are near the time when some of our children must be placed on part-time attendance unless early provision be made for additional school accommodations.

Some Important Changes in the Teaching Corps of the Elementary Schools

Near the end of the school year, Mr. Thomas B. Pollard, who had served the city as a principal since 1887, passed into the Great Unknown. Mr. Pollard was a man of unusually fine character, a teacher of rare ability, thoroughly respected by his professional associates and admired by citizens in general for his sterling worth to community well-being, and his loss was a severe blow not only to the educational system but also to the civic interests of the city.

The voluntary and regretted retirement of Sarah A. Malone, Alice S. Hatch and Ida F. Humphrey from the teaching corps of the Daniel Webster School at the end of the school year, under the provisions of the State Retirement Act, was another heavy loss to the school system.

These women had served the schools of the city long, faithfully and efficiently and left behind them a record of which they may be justly proud. Fortunate were children who enjoyed the instruction of these devoted women.

The death of Annie E. Sandison, a teacher in the Willard School, during the latter part of the summer vacation, was another serious loss to the schools and to the community. Miss Sandison had served the city continuously since the fall of 1919. She was a woman of noble purpose who always gave her best thought and energy to the interests of the children whom she taught.

In October, 1925, Miss Ellen B. Fegan, also a teacher in the Willard School, passed to her eternal rest after a brief illness. Miss Fegan had served as a teacher in the Quincy schools continuously for a period of 50 years approximately. She was devoted to the interests entrusted to her and her work was of a superior grade to the last. She was universally respected and beloved by all. The

loss of so rare a character from our teaching corps is keenly felt by the School Department.

Another regretted loss to the system was the resignation in October of Mr. Leroy L. Woods, Assistant Superintendent of Schools, to accept a more lucrative position in a private school in Canaan, New York.

Mr. Woods had served the city for several years as a principal, first in charge of the Willard and Gridley Bryant Schools, later in charge of the Government and Washington Schools, and the character of his service in both positions led to his appointment as Assistant Superintendent upon the creation of that office in 1923. In the latter position he had charge of the activities of the Home Making and Industrial Schools, the Academic Evening and Summer Schools, and of the Practical Arts Classes. Under his guidance these activities were noticeably improved, and his resignation was accepted with keen regret.

Mr. Albert H. Cochrane, Principal of the Government and Washington Schools, was selected as Mr. Woods' successor, and his sane judgment in the discharge of his duties thus far promises well for the future.

Another important change during the year was the resignation of Elizabeth M. Douglas, Director of the Home Making School, to accept a position in the Boston schools. Miss Douglas had served the city in the above capacity since 1916, with the exception of one year when she was granted a leave of absence on account of illness, and her resignation faced the Committee with a serious problem to find one who should maintain the standard set by Miss Douglas in her administration of this school.

Miss Caroline H. Wilson, a graduate of Simmons College, with wide experience in the lines of work characteristic of a home-making school, was chosen to fill this vacancy, and her administration of the school thus far fully justifies the selection.

At the close of the school year in June, the Supervisor of Physical Education in the schools, Mr. Fridtjof N. Nissen, resigned to associate himself with the Posse-Nissen School of Physical Education in Boston for the training of teachers in that line, and his assistant, Miss Lena A. Walmsley, also resigned to study at Columbia University.

These resignations were a staggering blow to the interests of this important division of our school work, since both Mr. Nissen and Miss Walmsley were instructors of worth in their special field.

Mr. William H. Whiting, Director of Physical Education in the Huntington School for Boys in Boston, was selected to fill Mr. Nissen's place, and Miss Marguerite Slawson was chosen to fill Miss Walmsley's place. Both Mr. Whiting and Miss Slawson came to us with broad training and large experience and are directing the work of their department with intelligence and enthusiasm.

To further strengthen the work in this field, Miss Eleanor Bruton, a graduate of our local schools and of the Posse-Nissen School of Gymnastics, was added to the corps.

The addition of another instructor to this department has made possible certain needed changes in the organization of our physical training instruction which are proving distinctly beneficial.

School Costs

In common with school costs the country over, expenditure for public education in Quincy has increased rapidly in recent years.

As a result taxpayers are sometimes led to wonder whether school authorities are sufficiently regardful of economy in the administration of school interests.

In view of that fact, the following statements may be interesting

Three factors are mainly responsible for the rising school costs everywhere, viz.: (1) the steadily increasing membership of the schools; (2) the steady decrease in the purchasing power of the dollar during recent years, and (3) the greater efficiency of the schools in meeting community social needs.

Computation, based upon (a) the expenditure for public school support in Quincy for the 20 years from 1900 to 1920, (b) the increased membership of our schools during that period, and (c) the depreciation in the purchasing power of the dollar during the same time, shows the following facts with respect to the increase for school support in 1920 over that for 1900, which amounts to \$429,335.12.

1. Approximately 19 per cent. of this increase is due to the increased membership of the schools.

2. Approximately 80 per cent. of the increased cost is due to the decreased purchasing power of the dollar.

3. The remainder, approximately 1 per cent., is due to increased efficiency, i. e., to larger social service rendered.

Since neither the increased membership of the schools, nor the depreciation in the purchasing power of the dollar are matters controlled by school authorities, and since these two factors together contribute to cause practically 99 per cent. of the increase noted in our school expenditure for the period under discussion, it is obvious that those who administer the schools cannot be fairly held responsible for the fact that our school expenditure today is considerably larger than it was two decades ago.

Another interesting fact in this connection appears in the following tabulation showing the itemized per capita costs for school support in Quincy for the school year ending June, 1925, as compared with similar costs for the State at large and for the thirty-eight other cities of the Commonwealth.

Itemized Cost Per Pupil for Support of Public Schools (Day, Evening, Summer) for the School Year Ending with June, 1925

[Based on the Average Membership of the Schools]

Items	Average per Capita Ex- penditure for Quincy	Average per Capita Ex- penditure for 38 Other Cities	Average per Capita Ex- penditure for the State
Instruction	\$53 46	\$64 38	\$60 34
Administration	1 68	3 09	3 21
Textbooks and Supplies for Instruction	4 37	4 55	4 49
Operation of School Plant.....	7 48	9 88	9 92
Maintenance of School Plant	1 95	5 68	4 92
Miscellaneous	2 45	2 21	4 75
Totals	\$71 39	\$89 79	\$87 63

From this tabulation it appears that, while the per capita cost for Quincy was \$71.39, that for the State at large was \$87.63, and that for the thirty-eight other cities was \$89.79.

These figures mean (1) that, if Quincy had expended for school support during the past school year as much per pupil in the average membership of her schools as the similar average for the State at large, our school budget would have been larger than it was by \$172,206.40; (2) that, if Quincy had expended as much per pupil as the similar average for the 38 other cities, our school budget would have been increased by \$195,224.00.

While the foregoing facts indicate that those charged with the management of the schools have guarded carefully the expenditure for school support, they also suggest the question whether the best interests of the city may not justify a larger expenditure than we are now making for the education of our young people, upon whom the future welfare of the community depends to a large degree.

Senior High School

Two important tests of the efficiency of a high school are (1) the standing of its graduates (a) in higher schools and (b) in lines of business activity where success is conditioned to a considerable degree upon the technical training given by the school in such subjects as typewriting, stenography, accounting, etc., and (2) percentage of the school population seeking its advantages.

1. *Standing of Graduates*

Regarding graduates of our school in higher institutions, records indicate that they stand well,—some ranking unusually high, as is the case in particular of one now in Dartmouth and of another now in the Massachusetts Institute of Technology. First-class natural ability is largely responsible for the splendid record of these two young men. First-class native ability, however, must have adequate training in order to produce superior results in higher educational institutions. Therefore, our high school, in which these young men received their preparation for collegiate work, must have done well for them.

Regarding those graduates who go directly into lines of business activity requiring the application of technical training in typewriting, stenography, accounting, etc., such evidence as I have secured demonstrates that our high school along these lines does correspondingly well.

2. *Percentages of School Population in High School*

In September, 1920, 14.4 per cent. of our school population were registered in the high school. In September, 1925, 18.4 per cent. were in the corresponding grades.

In other words, 4 per cent. more of our school population today are in the high school grades than was the case five years ago.

Again, during the past five years, while the membership of the elementary schools has increased 25.8 per cent., that of the high school has increased 69.3 per cent. In other words, the attendance in the high school grades has increased during the past five years over 2½ times as rapidly as that in the elementary schools.

The foregoing facts indicate that our High School is increasingly serving the educational interests of the city and is also performing that service with commendable efficiency.

Several important changes have taken place in the personnel of the teaching corps of this school during the past year.

The former head of the Commercial Department, Mr. Fred C. Ball, was obliged to retire near the close of the school year owing to ill-health, and the former efficient head of the Department of Latin, Mr. John P. Jewell, resigned in June to accept an appointment in another community. Ordinarily, changes in such important positions are disastrous, for a time at least.

We were fortunate, however, in securing as successors to these men, persons whose wide experience and efficiency have kept both departments fully up to the standard of excellence set at any previous period. In filling such other vacancies as have resulted from resignations in this school, we have been equally fortunate without exception, so that I am able to report that our High School has never been, so far as my knowledge of its operation is concerned, in a more satisfactory condition than it is at present. Further information regarding the work of this school is contained in the report of Headmaster Collins, which follows:

REPORT OF HEAD MASTER OF HIGH SCHOOL

MR. FRED H. NICKERSON, *Superintendent of Schools*.

Another twelvemonth has passed and again I hand you my report for the Senior High School. The comparative report of enrollment and membership during recent years is as follows:

	1923	1924	1925
Number enrolled	1,182	1,389	1,395
Membership at date	1,138	1,318	1,349

At first thought it would appear that there has been very little increase in the school during the year, but this will be seen not to be the case when explanation is made that the figures given for 1923 and 1924 include groups from the ninth grade which are no longer included in the school. The membership given above for 1925 includes only the tenth, eleventh and twelfth grades. It may be of interest to note, also, that this has been a year when the high schools of many large cities have barely held their own in numbers or have shown a decrease for the year.

Since the opening of a new year in September the work of the school has been marked by a more serious effort on the part of the pupils and an apparent desire to get down to hard work. It has been very evident that we were losing the effects of the disastrous conditions under which the school was conducted in the limited quarters of the former building and that the boys and girls are now settling down to a normal state of study and real endeavor.

During the year, through the kindness of Miss Hattie L. Burrell, the school became the possessor of a fine ink drawing done by her father of the first high school building in the city. Because of this gift I was led to make a study of the history of the high school, and a few facts in this connection may not be out of place and may be of real interest.

In 1851 the town built a building costing about \$6,000 and appro-

priated \$800 to establish a high school, which was opened in May, 1852, with one teacher and fifty-one pupils. All pupils were admitted by examination, which consisted of twenty questions in each of the following subjects: Arithmetic, geography, grammar, and spelling. From this time for twenty years, the school appears to have been carried on in much the same way by a succession of teachers with a limited program of studies and in a small, apparently uncomfortable building. Several annual reports of the School Committee mention rough, unsightly school grounds and the alternate roasting and freezing of pupils because of the use of stoves for heating.

Evidently some of the teachers were hard taskmasters, for in 1857 we find the School Committee "putting in a word of caution in regard to the extent of study required from growing children, especially girls, and especially in lessons given to be learned out of school hours." The Committee goes on to concur with a rule made by the School Board of Boston that "lessons to be studied in school shall not be so long as to require a scholar of ordinary capacity to study out of school in order to learn them." A year later, continuing the same subject, the Committee "urges the parents to insist upon the children taking a greater amount of active exercise in the open air than they do now."

In 1866, "the Latin language is still required but by application to the Committee by the parent or guardian of the pupil it can be dispensed with." A strong feeling seems to have existed in the community that the studies of the school were not as practical as they should be and accordingly the Committee recommended an additional department in which common school branches, such as arithmetic and grammar, might be perfected. Even as late as 1872, there is the same cause for worry and the Committee in its report expresses the idea that "some pupils might better be perfecting their arithmetic and patiently amending their writing and spelling than puzzling themselves with geometry and algebra and playing with natural philosophy, chemistry, botany, the civil policy of the Commonwealth and of the United States and the Latin language."

Moreover, now, when all schools are crowded, it seems strange to read that in the earlier days it was necessary to reduce the standard for admission and to make some sacrifice to the peculiar function of the school to get sufficient pupils to fill the school.

In the report of the School Committee for 1884 are statistics of graduating classes for a series of years which show that from 1875 to 1884, inclusive, there was graduated from the school a total of 169 pupils. In this connection we might note that in June, 1926, the graduating class will number almost as many as this total of classes for ten years and this without taking into account 105 pupils who graduated in January, 1926.

In 1890, the Superintendent of Schools and the Principal of the High School are authorized to draft a course of study for the school covering four years, the course up to this time having consisted of only three years.

A commercial course was recommended in 1892 for those pupils who expected to enter business after leaving school and was established in the school the next year. How popular this course eventually became is evidenced by the fact that nearly half the pupils in the present school are in the commercial course. For the sake of contrast with present conditions it is worth while to

mention that in this year 1892 only half the graduates from the grammar school entered the high school, whereas at the present time very few pupils do not enter high school.

Great joy in 1894. After using the first building forty-two years, a new building is occupied. This was the original part of the present Central Junior High School. The city now had a building equipped with a laboratory, drawing room and other modern facilities. It is amusing to read that there seemed to have been progress in several lines, for in this year we find the Committee in its report trying to impress the parents with the value of home study as an absolute necessity for success in school work.

The next year, 1895, manual training was added to the program of studies, and about 1910 sewing and cooking were introduced into the school, completing the number of departments of instruction as they now exist.

In 1906, the building was remodelled and enlarged to its present form and was in use as a four year high school until the present building was occupied in 1924 as a senior high school.

The growth of our school has been really phenomenal and has more than kept pace with the growth of the city. In 1852 the population of the city was approximately 5,500 with a high school of 51 pupils. At the present time we have a population of about 60,000 with a senior high school of 1,349. Furthermore, it has advanced from a school of a single teacher and a simple program of very elementary and intensely practical studies to a school of 61 teachers with a long program of studies containing both the practical and the cultural in great variety. We are training boys and girls to enter business, or take up trades, and, instead of worrying about preparing an occasional boy for Harvard College, as did our predecessors, we are getting large numbers of boys and girls ready to enter more than a score of higher institutions of learning. But it is in the field of extra-curricular activities that marvelous development appears. Now there are athletics, dramatics, girls' club, debating club, clubs for special studies, glee clubs, orchestra, band and the like; all an integral part of the work of the school which is in modern times to develop the boys and girls along moral, social, physical and intellectual lines.

In connection with one of the activities above mentioned, I desire to express to the Kiwanis Club the gratitude of the school for providing uniforms to our school band. It would be very easy to wax enthusiastic regarding this organization, but I will be content with saying that the band has had a large part in building up the wonderful school spirit in evidence this year. It has also been able to contribute its part to many civic affairs including our great Tercentenary celebration.

This report provides an opportunity to express to the citizens of the city our appreciation of the great loyalty and support they have given to the school, particularly during the past year. To you and the School Committee, may I give a word of gratitude both for the other teachers of the faculty and for myself for the confidence you have shown in us and the help and counsel we have always had from you.

Respectfully submitted,

ERNEST L. COLLINS,
Head Master

Junior High School

One of the most important advance steps in recent years in the public school system of Quincy was the opening of the Central Junior High School in September, 1924. The theory of the junior high school organization was presented in my annual report for that year and need not be repeated at this time. The plan for Quincy contemplates the ultimate establishment of three additional junior high centers,—one in the northern section of the city, one in the southwest section, and one in the Quincy Point section.

A beginning has been made upon a junior high building for the northern section, and a request is now before the City Council for a building for the southwest area. It is extremely unfortunate that the financial condition of the city have prevented more rapid action in providing the needed buildings for the completion of the establishment of the projected junior high schools, since it is impossible to secure the full benefits of this system of organization until the necessary housing quarters are provided.

Regarding the Central Junior High, it may be said that, although overcrowded conditions in the various elementary schools have obliged us to place in this school pupils who do not properly belong there, thereby preventing the organizing of the school upon a complete junior high basis, nevertheless, under the intelligent and enthusiastic management of Principal Goodspeed and his efficient co-workers, gratifying results are being secured and the beginning made affords ample ground for the belief that no mistake was made in the decision to reorganize our school system on the junior high basis.

I regard the pushing forward of the junior high plan to its earliest completion as the most important special work before the Committee at the present time.

Academic Evening School

The purpose of this school is to provide instruction in the so-called academic subjects for persons beyond the compulsory school age who are not in the regular schools.

The total enrollment during the past year was 391. The enrollment by subjects was as follows: Bookkeeping, 86; Business Arithmetic, 90; Business English, 164; Penmanship, 54; Stenography, 186; Typewriting, 182; Mechanical Drawing, 182; Grammar School subjects, 18.

During the season of 1922-23, the plan of operating this school was reorganized, somewhat, in an attempt to make it meet more largely the needs of those who might seek its benefits. The result of this endeavor has been to increase the attendance of this school 72 per cent. during the past three years. It is evident, therefore, that this division of our school work is increasingly extending its benefits to the community and thereby justifying its maintenance.

I invite your attention to the following suggestion from the report of the Assistant Superintendent of Schools, who had direct supervision of this branch of our school work: "The inauguration of presenting certificates to pupils who have attended two successive years has acted as a stimulus in bringing pupils back for a second year. I believe that the work of our evening school should be so standardized that pupils who wish to avail themselves of the privilege may acquire, after completing a required number of units

in a specified number of subjects, a regular High School diploma. While attempts to inaugurate such a program of studies might yield meager results at first, I believe that, in a few years, there would be a big demand for such a system of education.

"This year I have received several requests for classes to be organized to give instruction in Algebra, English Literature, Physics, and French. In view of this fact, I think that one or two classes could be opened next year as a beginning toward the plan suggested above."

The Academic Summer School

The following tabulation shows interesting comparative data on this branch of our school endeavor covering the five years of its existence.

DATA ON ACADEMIC SUMMER SCHOOL

Grades	Year	Total En-rollment	Average Membership	Per Cent Daily Attendance	Total Cost	Cost per Pupil
VB to VIIIA inclusive	1921	391	334.84	92.61	\$1,425 08	\$4 26
	1922	417	364.52	91.60	\$1,598 25	\$4 38
	1923	361	296.43	93.35	\$1,517 06	\$5 11
	1924	405	340.40	95.60	\$2,187 82	\$6 42
	1925	375	334.40	97.90	\$2,153 99	\$6 44

It is significant of the seriousness of the pupils in this school that, although its sessions are held during the hot season and although attendance is voluntary, nevertheless the per cent of regularity in the attendance was 97.9 per cent, which is higher than that in the regular day schools during the past year by 4 per cent.

The Director of this school submits the following interesting facts concerning the past season's work:—"Of the pupils who entered to secure a lost promotion, 197 remained to the end of the term. Of this number, 191, or 97 per cent, were successful. Of 104 studying to remove conditions under which they had received promotion in June, 99, or 95.2 per cent, were successful. Of 16 working for diplomas of graduation from the elementary schools, 100 per cent were successful. Other pupils, who were in the school to review work in which they were relatively weak, did creditable work and will thus be better prepared to accomplish their tasks in the higher grade to which they were advanced in June."

The accomplishment of this school during the period of its existence amply justifies its organization and maintenance.

State Aided Activities

Conditions with respect to these important lines of our school work continue satisfactory as indicated by the following facts regarding the several activities.

1. *Day Industrial School for Boys*

The following tabulation shows the enrollment in this school for the past three school years:

Year	No. of Different Pupils Enrolled	Per Cent of Annual Increase
1922-23	164	
1923-24	180	10%
1924-25	227	26%

The steady annual increase shown in the attendance at this school indicates a growing appreciation of the benefits of the training given.

Of the 227 pupils enrolled during the year, 42 were in the Machine Department; 40 in the Electrical Department; 16 in the Sheet Metal Department; 42 in the Plumbing Department; 70 in the Woodworking Department; and 17 in the Auto Mechanics Department, which was opened in February, 1925.

The increased attendance in the Plumbing Department required the employment of an additional teacher during the year.

Without exception the teachers of this school are men who are performing their tasks creditably.

2. *Home Making School for Girls.*

Present conditions in this school are more satisfactory than at any previous time during the five years that I have been connected with the schools of Quincy. Since September, 1924, the school has been housed in quarters both more attractive and more convenient for efficient work than those in which it had performed its work previously, the working spirit of the pupils is commendable, the teachers are well-prepared and able, and the director is a wise and stimulating leader who has the good-will of the pupils and the whole-hearted support of her fellow-workers.

The attendance for the year has remained nearly the same as that for several years past, being 48.

If parents understood better than they do, as a rule, the worth of the practical training that the girls of this school are receiving, not only as future home-makers but also as preliminary to wage-earning in the fields of dressmaking, millinery, etc., I believe that the school would out-grow its present accommodations in the near future.

3. *Continuation School*

This school, which has been in operation for the past five years, provides supplementary educational privileges for boys and girls from 14 to 16 years old who by law are compelled to attend a continuation school four hours per week if working not less than six hours a day or 20 hours if not working or attending the regular day schools.

During the past year, 127 boys and 50 girls, a total of 177 different pupils, have been enrolled in this school.

The pupils are given such academic instruction as their individual needs required and the time of their attendance would permit, and, in addition, the boys have had general shop work of a practical character and the girls have had training in sewing, cooking, millinery and home nursing.

The academic instruction is given by the Director of the School,

Mr. Harlan L. Harrington; the shop work for boys by his assistant, Mr. Dana B. Clark, Jr.; the Home Nursing instruction by one of the school nurses, Miss Marion Jackson; and the instruction in Sewing, Cooking, and Millinery by teachers in the Home Making School.

At the opening of the new Senior High School building in September, 1924, this school was transferred from its temporary quarters in a portable building to more adequate quarters planned for it in that building. As a result of its improved facilities therein and of some re-adjustments in its operation, the director says in his annual report,—“Both the boys’ and girls’ work is upon a firmer basis than formerly and I feel that the school has done more for the pupils during the past year than ever before.”

4. *Evening Industrial School for Men*

The aim of this school is to provide such instruction for men in the industries as shall help them to higher efficiency in their several vocations.

During the past season, classes have been maintained in Machine Shop Practice, Sheet Metal, Drafting, Electrical Wiring, Plumbing, and Roof-framing.

The total registration was 148 men, distributed as follows: Machine Shop Practice, 25; Sheet Metal Drafting, 25; Electrical Wiring, 33; Plumbing, 39; and Roof Framing, 26.

5. *Practical Arts Classes for Women*

The aim of these classes is to provide opportunity for the adult women of the community to receive instruction in household or practical arts. During the past season instruction has been offered through these classes in Dressmaking, Millinery, Cooking, and Home Nursing.

The total registration in these classes during the past season was 955 women,—distributed as follows: Dressmaking, 619; Millinery, 277; Cooking, 42; and Home Nursing, 17.

This registration represents a gain of 11 per cent over that for the previous season, indicating that this phase of our educational endeavor is increasingly meeting a community need.

The value of this work from the economic point of view alone is suggested by the following statements from the annual report of the Supervisor of these classes:—“The cost of the material used by the women in the Dressmaking classes was \$12,487.97, and the commercial value of the finished garments was \$34,693.58, which represents a saving of \$22,205.61 for the 619 members of this group.

“The worth of the material used in the Millinery classes was \$4,555.06 and the commercial value of the finished hats was \$11,206.15, which represents a saving of \$6,651.09 for the 277 members of this group.

“In the Cooking classes, the materials used cost \$144.72. The market value of the products of the classes was \$444.20. The difference between the cost of the raw materials and the products represents a saving of \$299.48 for the 42 women in this group.”

Another worthwhile result from these classes, which cannot be evaluated in dollars and cents, is suggested in the following quotation from the Supervisor’s report for 1924:—“In the Practical Arts classes, the women not only attain much knowledge of materials used and of designs and patterns, but they also acquire many useful skills, some worthwhile habits, and certain social

and civic ideals, the value of which can be measured only as they add to one's future happiness and contentment."

6. *Americanization Classes*

The aim of the work in these classes is not only to provide for the foreign-born people of the city instruction calculated to prepare them to secure American citizenship but also to have a sympathetic and thoroughly loyal attitude toward American social and political ideals.

During the year, 596 different individuals have enrolled in the 27 classes that have been maintained throughout the city.

It is impossible to accurately evaluate the worth of this work of these classes, either to the individuals who have attended them or to the community at large, but one who is at all familiar with it can hardly doubt that it has high value.

The continued success of this important phase of our school endeavor is to be credited chiefly to the intelligent and close supervision given it by our Director, Miss Nellie A. Perry.

Thrift Work

Individual thrift is a fundamental element of good citizenship. A primary obligation of the public schools is to promote efficient civic conditions. Therefore, the schools do well to provide opportunity for the development of the habit of thrift in young people. To this end a school savings system is maintained in all our elementary schools and in the Junior High School. In my judgment this system may well be extended to the Senior High School and I hope to see it so extended in the near future.

During the past year, the total number of different depositors in the system was 5,959, which is an increase of 817 over the number for the previous year. The deposits for the year amounted to \$44,085.96.

A savings system has been in operation in our schools since October, 1908. During the period from that date to the end of the school year in June, 1925, the deposits of the children have totaled \$251,140.91.

Quincy's Tercentenary Celebration

The work of the schools in connection with Quincy's Tercentenary Celebration is too well known to our citizens in general that extended discussion of it seems unnecessary. Moreover, it has been adequately treated in the report of the School Committee. I desire, however, to express my admiration for the splendid work of both pupils and teachers in connection with this Celebration. The part taken by the schools contributed much to make the Celebration a complete success. While the work done by teachers and pupils in this connection necessarily interfered considerably with the carrying out of the regular school program, I am satisfied that any loss thus sustained was more than balanced by the historical and civic lessons that the pupils gained through their participation in this greatest of Quincy's celebrations.

Conclusion

While the foregoing review is by no means an exhaustive exhibit of our school activities for the past year, it is sufficient, I think, to indicate that work has progressed with reasonable satisfaction.

For the accomplishments of the year, too much credit cannot be given my entire corps of fellow-workers for their efficiency and hearty co-operation.

In closing, I desire to acknowledge, also, my appreciation of the unflinching support of the Committee.

It is a pleasure to work under conditions that prevail in the School Department of Quincy.

Respectfully submitted,

FRED H. NICKERSON,
Superintendent of Schools.

APPENDIX A

STATISTICAL DATA

1. Report of Attendance Officer

MR. FRED H. NICKERSON, *Superintendent of Schools, Quincy, Mass.:*

I hereby submit the twenty-ninth annual report for the twelve months ending December 31, 1925.

Number of cases investigated for non-attendance as per blanks	1,440
Number found to be truants.....	71
Parents and children before court for violation of school laws	4
Number convicted	4
Number of transfer cards investigated.....	629

Details regarding attendance work and employment certificates for year ending December 31, 1925, appear in the following tables:

Attendance Work by Months

1925	Number of Cases investigated	Actual Truants	School Age returned to School from Street Children of	Manufactory and Stores inspected	found empl'd Con'try to Law Number

APPENDIX B

LIST OF GRADUATES

1. High School

(a). JANUARY, 1925

Laura Marie Aalto	Julia Elvira Manneros
Marjorie Natalie Adams	Marjorie Helen Mardon
Jacob Applebaum	Margaret Lorimer Marr
Ruth Evelyn Arbuckle	Beatrice Lillian Martineau
Lena Jennie Asnes	Elizabeth C. Morris
Morris Asnes	John Morton
Henrietta Julia Burroughs	Gladys Neal
Dorothy Briggs	Clarence Bentley Nickerson
Virginia Frances Call	George Henry Noble
Myrtle Catherine Campbell	Harold Carl Olson
Henry Nicholas Carlson	Walter James O'Brien
John Joseph Crowley	Florence Evelyn O'Connell
Joseph Lawrence Curran	Annie Marie Ohman
Henry Cutler	Mabel Ellen Overlock
Fred Pearson Dickey	Lazarus Michael Phillips
Corinne Elizabeth Edwards	Laura Isabel Piper
Robert H. Fay	Ilmi Puskala
Gunnar John Gelotte	Frances Redlon
Natalie Marie Ghigli	Marie Helen Riihimaki
Mabel Arnold Guilhop	Christina Alice Ross
Esther Halonen	Henry Forbes Russell
Melba Alice Hanson	Mary Gertrude Savage
Margaret Kemp Heselton	William Kimball Savary
Ruth McNair Holmes	Clara Luella Saylor
Corinne Evelyn Holteen	Wade Hampton Shorter, Jr.
Edward Hansen Hoyle	Mollie Silverman
Dorothy May Johnson	Emmett R. Smith
Henrietta Louise Johnson	Alexander George Souden
Ruth Eleanor Johnson	Frederick Albion Sprowl
Theodore Samuel Johnson	Mary Emily Stitt
John Hugh Kennedy	William Richmond Tarbox
Barbara Klingenhagen	Rachel Matilda Thomas
Joseph William Koritzky	Theodore Francis Trask
Ethel Marie Kunkel	Joseph Blair Varley
Pearl Kuperman	Sabestino Volpe
Marguerite Christine Lahey	Anna Alice Walder
Loretta Lane	Carl Gustave Wennberg
Paul Walker Littlefield	Miriam Westland
Edward Lawrence Maloney, Jr.	Lucy Zanotti

(b). JUNE, 1925

Jack R. Ainsleigh	Merritt Sinclair Libby
Mary Frances Alward	Frank William Lowe, Jr.
Carl Albert Anderson	Morris Lubarsky
Laura May Anderson	Anne Ruth McAllister
Ruth Hillevi Anderson	Harold Arthur McAskill
Mildred Mary Arsenault	Margaret McAvoy
Meyer William Asnes	Frederick Milton McCobb
Dorothy Alma Austin	Mildred Elizabeth MacDonald
Nicholas Alexander Avgerinos	Hester Grace McFague
Rose Cecelia Bruton	Walter T. MacKinnon
Carmaleen Mae Butler	Isabelle Catherine MacLennan
Gordon Morrison Campbell	Norman Everett MacLeod
Anna Bernadine M. Carlson	Sara Elizabeth MacMurray
B. Theodore Carlson	Lillian Jean MacMurray
John Joseph Caruso	Ardyss Yvonne Macteer
Virginia Elizabeth Carville	Mary Frances Mahoney
Ezio Thomas Casellini	Ralph Arthur Manneros
Margaret Mary Chrisom	Sophie Edythe Marentz
Arthur Cockerill	Eva L. Mattson
Marion Agnes Costello	Edwin Gordon Milk
Barbara Helen Coy	Joseph Copeland Morse, Jr.
Clarice Agnes Crocker	Katherine Rita Muldoone
Merriland Dorothy Curry	Winifred Esther Mullen
Altia Dalrymple	Rita Violet Neal
Dorothy Dalrymple	Aune Anna Nelson
Mary Elizabeth Darrah	Carl Christian Nelson
Alice Carmel Deady	William Everett Nix
James Arthur Dean	Viola Hortense Nordstrom
Edgar Joseph DesJardins	Ralph Nugent
Mary Margaret Devine	Francis Richard O'Brien
James Joseph Devlin, Jr.	Alice Evelyn Olson
Thomas David Dewey	Edith L. Olson
Ethel Diack	Lillian Olsen
Allen Edward Dickey	Ruth Virginia O'Malley
Wilson Coe Dold, Jr.	Harriett Dorothy Patterson
Helen Gertrude Douglass	Harold Leonard Payne
Arthur Paul Dowling	Vera Electra Persion
Norman Edwards Earle	Harold Stanley Peterson
Victor Alfred Ericson	Margaret Eleanor Philp
Thomas Carleton Faulds	Philip John Pinel
Lorain H. Fawcett	Serena May Randell
Kathryn Irene Fennessy	Patricia Rita Raskauskas
Gertrude Mabel Fitton	Walter Riberdy
Helmi Ihanna Flinck	Edith Thelma Bernice Riggs
Robert S. Foley	Charlotte Martha Riggs
Agnes Louise Fornell	Helen Rita Riley
Mary Althea Foss	Mildred Faustina Riley
Philip Joseph Gaciaia	Marion Ripley
Eugene Albert Gaudreau	Frances Claire Rogers
Veronica Sabina Gerroir	Olive Little Rogers
Margaret Deacon Gibb	James Andrew Ronald
Edna Ruth Glidden	Arthur Chandler Ryder
Fannie Fay Goldner	Jennie Miriam Sandlovitz
Ethel Lillian Gonja	Helen Frances Sawtelle
Joseph Michael Grady	Ruth Howard Sawtelle

Harold Damon Gurney	Catherine Louise Serow
Ingeborg Ruth Gustafson	Edna Aloysia Shea
Francis D. Hackett	Francis Richard Shea
Arnfin John Hamre	Ruth Elizabeth Shevlin
Ruth Adeline Helfrich	Anna Mary Smith
Ronald M. Hepburn	Elizabeth Squibb
Genevieve Ruth Higgins	Richard Thomas St. Clair
John Steven Hofferty, Jr.	Henry Ernest Stone
Harold Elihu Hubbard	James Roche Sullivan
Robert Hunter	Evelyn Agnes Swanson
Elsie Louise Huntley	Isadore Szathmary
Freda Margaret Jaukkuri	Charles Frederick Todd
William J. Jones, Jr.	Elizabeth Tower
Roland Kenneth Josselyn, Jr.	Stanley Clinton Trask
Sophie Kaufman	Gordon Sangster Troupe
William Corcoran Kelliher	Ethel Bernice Van Strye
Chester Lee Kilpatrick	Robert William Vergobbi
Eva Florence Kilpatrick	Mary Louise Wade
Anna May Kimball	Alice Carlton Waite
Impi Louise Koski	Barbara Ford Walker
Carlysle Herbert Kretschman	Albert Donald West
Abraham Bently Kurtis	Mary Florence White
Herva Louise Lane	Alice Ola Whittier
James Edward Lane	George Houghton Whittum
Beatrice Emily Lash	John Henry Wiley
Marian Edes Letson	Marion Elizabeth Wright
Alice Mae Lewis	

2 Elementary Schools

(a). JANUARY, 1925

Adams School—12

Albert Francis Cavanagh	Leo A. Mallet
Charles W. Coy, Jr.	Francis Henry Mallet
Frank G. Craig	Jean Campbell Mitchell
Lillian Rose Drohan	Arthur A. Pinkham
Oscar R. Gelotte	Ella Florence Pratt
Frances Gioncardi	Thomas H. Walsh

Atherton Hough School—17

Arthur James Cooke	Kathleen Marie Medros
Frederick Robert Durgin	Thelma Evelyn Nason
Aida Addell Gelfen	Arthur Eugene Olinto
Hubert Francis Helfrich	Marion Louise Pawsey
Clifford Stanley Johnson	Carl Brown Peterson
Edgar Lloyd Jordan	Dorothy May Rose
John Francis McGivney	Margaret Bouck Robinson
Warren Edward Kelcourse	Leo Walsh
Reginald Patrick McCabe	

Coddington School—20

Stuart Henry Buck	Sadie Elizabeth Papile
Dominic Chiminiello	Nicolas Pecce
Thomas William Cook	Leighton Purdy Rogers
Geraldine Mary DeCoste	Grace Eleanor Sadlier
Stephen Garment	Robert Edge Scholes
Richard Clayton Hammond	Stanley Herbert Smith
Paul Frederick Herklotz	Raymond Francis Sullivan
Betty Louise Loud	William Joseph Sullivan
George Scotland McNeill	Dorothy Eleanor Weeden
Catherine Anna Monti	Doris Evelyn Williams

Cranch School—20

Carl August Acker	David Moore MacGregor
Edith Louise Cole	Ruth Anna Irene Mattson
Willis Talbot Ferguson	Reginald Alexander Morrison
Anna Sophie Franks	Hazel Astrid Nelson
Elmer Wendell Hedman	Agnes Marie Lavinia Peterson
Frederick Hill	Richard Rundle
Winfield Lockwood Jacobs, Jr.	Russell Edgar Sullivan
Lester Laurence Johnson	Nels Arthur Swenson
Violet Irene Johnson	Robert Edward Winer
Edna Mabel Lister	Otto Rolf Winquist

Daniel Webster School—14

Norma Merl Berg	Arthur Charles Knowlton
Edna Viola Blaisdell	Joseph Rodney MacDonald
Joseph Anthony Botanica	Harry Joseph Mitchelson
Joseph Francis Coppola	Marv Lena Molinaro
Donald Francis Fay	David Bruce Smith
Beatrice Vinton Fitts	Claire Emma Taylor
Mildred Marie Kerrigan	Alice Lillian Zinchuk

Francis W. Parker School—28

Helen C. Baer	Marion R. Kimball
Hilda L. Blake	Grant Kramer
Ruth M. Bugbee	Flora D. Lendman
Rosina J. Burnell	Grace G. Magura
